Pursuant to this Order, the Commission selected in-band, on-channel (IBOC) as the technology that permits AM and FM

radio broadcasters to introduce digital operations efficiently and rapidly. In addition, provisions of the Order required radio station licensees to provide information relative to implementation of interim hybrid digital operations. Implementation of hybrid digital operations is entirely voluntary. Commercial and noncommercial AM and FM radio stations that choose to begin hybrid digital transmissions shall notify the Commission within 10 days of the commencement of digital operations. The notification letter shall certify that the digital operations conform to applicable rule and standards. Furthermore, implementation of the notification letter eliminates both the need for the FCC staff to issue an STA to the broadcaster and for the broadcaster to file and pay the initial and any subsequent filing fees.
