## NUCLEAR REGULATORY COMMISSION

[Docket Nos. 50-498 and 50-499]

### STP Nuclear Operating Company, et al., South Texas Project, Units 1 and 2; Notice of Consideration of Approval of Application Regarding Proposed Corporate Restructuring and Opportunity for a Hearing

The U.S. Nuclear Regulatory Commission (NRC or the Commission) is considering the issuance of an order under Section 50.80 of Title 10 of the Code of Federal Regulations (10 CFR) approving the indirect transfer of Facility Operating Licenses Nos. NPF-76 and NPF-80 for South Texas Project (STP), Units 1 and 2, respectively, to the extent held by Texas Genco, LP (Texas Genco).

The application requests the consent of the NRC to the proposed indirect transfer of control of the STP, Units 1 and 2, licenses by virtue of the transfer of ownership of approximately 81 percent of the stock of Texas Genco's parent company, Texas Genco Holdings Inc., from CenterPoint Energy, Inc., to Reliant Resources, Inc. The transaction would result in the indirect transfer of Texas Genco's 30.8 percent undivided ownership interest in STP, Units 1 and 2. In addition to its 30.8 percent undivided ownership interest in STP, Units 1 and 2, Texas Genco holds a corresponding 30.8 percent interest in STP Nuclear Operating Company (STPNOC), a not-for-profit Texas corporation, which is the licensed operator of STP, Units 1 and 2. The application further requests, as necessary, approval of the indirect transfer of control of this 30.8 percent interest in STPNOC, to the extent such indirect transfer requires NRC approval by reason of the transaction described above.

Pursuant to 10 CFR 50.80, no license shall be transferred, directly or indirectly, through transfer of control of the license, unless the Commission gives its consent in writing. The Commission will approve an application for the transfer of a license, if the Commission determines that the proposed transferee is qualified to hold the license, and that the transfer is otherwise consistent with applicable provisions of law, regulations, and orders issued by the Commission pursuant thereto. Before issuance of the proposed Order, the Commission will have made findings required by the Atomic Energy Act of 1954, as amended (the Act), and the Commission's regulations.
