

SUPPLEMENTARY INFORMATION:**I. Abstract**

The United States and several other countries have undertaken to increase the effectiveness of their respective controls over international trade in strategic commodities by means of an Import Certificate procedure. For the U.S. importer, this procedure provides that, where required by the exporting country with respect to a specific transaction, the importer certifies to the U.S. Government that he/she will import specific commodities into the United States and will not reexport such commodities except in accordance with the export control regulations of the United States. The U.S. Government, in turn, certifies that such representations have been made.

SUPPLEMENTARY INFORMATION:**I. Abstract**

Section 7(g) of the EAA, as amended by the Export Administration Amendments Act of 1985 (Pub. L. 99-64), exempts from foreign policy controls exports of donations to meet basic human needs. Since the enactment of Public Law 99-74, an exporter had to apply for a bulk Humanitarian license, permitting the export of goods identified in a supplement to the regulation without restriction as to quantity or number of shipments to any of the embargoed destinations. New License Exception procedures contained in this regulation reduce the regulatory burden on these exporters by enabling them to make humanitarian donations with only minimal recordkeeping.
