Atlantic Highly Migratory Species; Exempted Fishing Activities

AGENCY: National Marine Fisheries Service (NMFS), National Oceanic and Atmospheric Administration (NOAA), Commerce.

ACTION: Final rule.

SUMMARY: NMFS issues a final rule in accordance with framework procedures for adjusting management measures of the Final Fishery Management Plan for Atlantic Tunas, Swordfish and Sharks (HMS FMP), and Amendment 1 to the Atlantic Billfish Fishery Management Plan (Billfish FMP). This final rule modifies existing regulations for Atlantic highly migratory species (HMS) exempted fishing activities, with the

intent of improving monitoring and reporting of exempted fishing activities for Atlantic HMS, primarily those which are collected for public display purposes and those targeted for scientific research.

DATES: Effective December 10, 2003.

ADDRESSES: Written reports on fishing activities and applications for Exempted Fishing Permits and Scientific Research Permits should be submitted to Sari Kiraly or Heather Stirratt, Highly Migratory Species Management Division (F/SF1), Office of Sustainable Fisheries, NMFS, 1315 East-West Highway, Silver Spring, MD 20910.

FOR FURTHER INFORMATION CONTACT: Sari Kiraly or Heather Stirratt at 301-713-2347, fax 301-713-1917, e-mail Sari.Kiraly@noaa.gov or Heather.Stirratt@noaa.gov.

SUPPLEMENTARY INFORMATION: Under 50 CFR 635.32, and consistent with 50 CFR 600.745, NMFS may authorize, for limited testing, public display, and scientific data collection purposes, the target or incidental harvest of species managed under an FMP or fishery regulations that would otherwise be prohibited. Exempted fishing may not be conducted unless authorized by an Exempted Fishing Permit (EFP) or a Scientific Research Permit (SRP) issued by NMFS in accordance with criteria and procedures specified in those sections. As necessary, an EFP or SRP would exempt the named party(ies) from otherwise applicable regulations under 50 CFR part 635. Such exemptions could address fishery closures, possession of prohibited species, commercial permitting requirements, and retention and minimum size limits.

This final rule was developed largely in response to ongoing concerns related to EFPs issued in the past for the purpose of collecting regulated HMS, particularly those collected for public display, and also takes into consideration concerns related to the reporting of permitted HMS scientific research activities. It is intended to strengthen the existing regulations which govern these permit related activities. This final rule is in accordance with framework procedures for adjusting management measures provided in the Final HMS FMP, and Amendment 1 to the Billfish FMP.

Exempted Fishing Operations

With respect to exempted fishing activities, NMFS finalizes the following requirements:

(1) Collectors of HMS for public display are required to notify the local NMFS Office for Law Enforcement at
