

“significant regulatory action” under Executive Order 12866; (2) is not a “significant rule” under DOT Regulatory Policies and Procedures (44 FR 11034; February 26, 1979); and (3) does not warrant preparation of a regulatory evaluation as the anticipated impact is so minimal. For the same reason, the FAA certifies that this amendment will not have a significant economic impact on a substantial number of small entities under the criteria of the Regulatory Flexibility Act.

NOAA Information Collection Requirements; Update and Correction

AGENCY: National Marine Fisheries Service (NMFS), National Oceanic and Atmospheric Administration (NOAA), Commerce.

ACTION: Final rule; technical amendment; republication.

SUMMARY: On October 28, 2003, NMFS published a final rule, technical amendment, to update and correct Office of Management and Budget (OMB) control numbers and related regulatory citations for NMFS information collection requirements. The published document contained only a portion of the table contained in the regulatory text, which was updated and corrected in this final rule. On November 4, 2003, the Office of the Federal Register issued a correction to the regulation by publishing the remaining portions of the table. However, to ensure that the public is aware of the modifications made to the

Code of Federal Regulations through this final rule, NMFS is republishing the final rule, technical amendment in its entirety. NMFS is also including editorial corrections to the final rule, technical amendment in this republication. Therefore, this final rule, technical amendment updates and corrects the NOAA inventory of control numbers so that the inventory reflects the valid OMB control number with its associated regulatory citation for each NMFS information collection requirement. Under the Paperwork Reduction Act (PRA), agencies are required to display a current control number assigned by the Director of OMB for each agency information requirement. The intent of this action is to update and correct the NOAA inventory of control numbers so that the inventory reflects the valid OMB control number with its associated regulatory citation for each NMFS information collection requirement.

DATES: This regulation is effective on October 28, 2003.

FOR FURTHER INFORMATION CONTACT: Catherine Belli, Fishery Management Specialist, (301) 713–2341.

SUPPLEMENTARY INFORMATION: On October 28, 2003 (68 FR 61339), NMFS published a final rule; technical amendment in the Federal Register updating and correcting portions of 15 CFR Part 902. However, only a portion of the table contained in the regulation was published in the October 28th Federal Register document. On November 4, 2003 (68 FR 62501), the

Office of the Federal Register published the remaining portions of the table in a correction notification. However, because this final rule, technical amendment was published in two documents, NMFS is reprinting the text of the final rule in its entirety to avoid any confusion and to ensure the public is aware of the regulatory changes to 15 CFR Part 902.

Pursuant to the Paperwork Reduction Act, Part 902 of title 15 CFR displays control numbers assigned to NMFS information collection requirements by OMB. This part fulfills the requirements of section 3506(c)(1)(B)(i) of the PRA, which requires that agencies display a current control number, assigned by the Director of OMB, for each agency information collection requirement. Portions of 15 CFR 902.1(b) reflect expired or incorrect OMB control numbers. In some cases, the regulations cited have previously been removed from the CFR and, therefore, there are no approved OMB control numbers for those regulations. In addition, the OMB control numbers for some requirements have changed but the obsolete numbers are still reflected in the inventory. Also, when new collection-of-information requirements were previously approved, the final rule implementing the collection-of-information requirement did not update 15 CFR Part 902.

Therefore, through this final rule, technical amendment, the inventory of OMB approved control numbers is corrected and updated to reflect the currently valid control numbers. All of
