BILLING CODE 3410-05-P

**NUCLEAR REGULATORY COMMISSION****10 CFR Part 50****RIN 3150-AH32****Minor Changes to Decommissioning Trust Fund Provisions**

**AGENCY:** Nuclear Regulatory Commission.

**ACTION:** Direct final rule.

**SUMMARY:** The Nuclear Regulatory Commission (NRC) is amending its regulations related to decommissioning trust fund provisions to correct typographical errors and make minor changes to a final rule promulgated by the NRC in December of 2002. This action adds clarifying language to amendments regarding notification requirements, investment prohibitions, and the option for licensees to retain their existing license conditions.

**EFFECTIVE DATE:** The final rule will become effective December 24, 2003, unless significant adverse comments on the amendment are received by December 22, 2003. If the rule is withdrawn as a result of such comments, timely notice of the withdrawal will be published in the **Federal Register**. Comments received

after December 22, 2003, will be considered if it is practical to do so, but the NRC is able to ensure only that comments received on or before this date will be considered.

**ADDRESSES:** You may submit comments by any one of the following methods. Please include the following number (RIN 3150-AH32) in the subject line of your comments. Comments on rulemakings submitted in writing or in electronic form will be made available to the public in their entirety on the NRC rulemaking web site. Personal information will not be removed from your comments.

**SUPPLEMENTARY INFORMATION:** Because NRC considers this action to be noncontroversial, the NRC is using the direct final rule process for this rule. The amendments in this rule will become effective on December 24, 2003. However, if the NRC receives significant adverse comments on this direct final rule by December 22, 2003, then the NRC will publish a document that withdraws this action and will subsequently address the comments received in a final rule as a response to the companion proposed rule published elsewhere in this **Federal Register**. Absent significant modifications to the proposed revisions requiring republication, the NRC will not initiate a second comment period on this action.

A significant adverse comment is a comment where the commenter explains why the rule would be inappropriate, including challenges to the rule's underlying premise or approach, or would be ineffective or unacceptable without a change. A comment is adverse and significant if:

(1) The comment opposes the rule and provides a reason sufficient to require a substantive response in a notice-and-comment process. For example, a substantive response is required when—

(a) The comment causes the staff to reevaluate (or reconsider) its position or conduct additional analysis;

(b) The comment raises an issue serious enough to warrant a substantive response to clarify or complete the record; or

(c) The comment raises a relevant issue that was not previously addressed or considered by the staff.

(2) The comment proposes a change or an addition to the rule and it is apparent that the rule would be ineffective or unacceptable without incorporation of the change or addition.

(3) The comment causes the staff to make a change (other than editorial) to the rule.
