Title: Section 1.929(c)(1), Composite Interference Contour (CIC).

Form No.: N/A.

Type of Review: New collection.

Respondents: Business or other for-profit, not-for-profit institutions, and state, local and tribal government.

Number of Respondents: 50.

Estimated Time Per Response: 2 hours.

Frequency of Response: On occasion reporting requirement and recordkeeping requirement.

Total Annual Burden: 100 hours.

Total Annual Cost: N/A.

Needs and Uses: Under Section 1.929(c)(1) of the Commission's rules, any increase in the composite interference contour (CIC) of a site-based licensee in the Paging and Radiotelephone Service, Rural Radiotelephone Service, or 800 MHz Specialized Mobile Radio Service is a major modification of license that requires prior Commission approval. However, the Commission released a Notice of Proposed Rulemaking (NPRM) in WT Docket No. 03-103 (68 FR 44003), proposing to amend this rule section to specify that expansion of a CIC of a site-based licensee in the Paging and Radiotelephone Service, as well as the Rural Radiotelephone Service and 800 MHz Specialized Mobile Radio Service, over water on a secondary, non-interference basis should be classified as a minor (rather than major) modification of a license. Such reclassification would eliminate the filing requirements associated with these license modifications, but require site-based licensees to provide the geographic area licensee (on the same frequency) with the technical and engineering information necessary to evaluate the site-based licensee's operations over water.

Needs and Uses: Section 74.985

requires signal booster stations to: (1) Submit engineering data or showings in specified formats to the FCC's duplicating contractor; (2) to serve a copy of the application and accompanying engineering materials on affected co-channel or adjacent channel parties; and (3) retain a copy of the application at the transmitter site. The data are used to ensure that MDS and ITFS applicants and licensees have considered the potential harmful interference from their facilities. The Commission is submitting this to the OMB for extension (no change) to obtain the full three year clearance.
