

products and to amend to terminate certain uses of seven other pesticide products (See Tables 1 and 2), and extends by an additional 30 days the public comment period on requests. In a June 30, 2003 letter, which was received by the Agency on July 14, 2003, Osmose, Inc. requested voluntary cancellation of its ACC product. Similarly, in letters dated September 5, 2003, Coopers Creek Chemical Corporation, KMG-Bernuth, Inc., Koppers, Inc., Railworks Wood Products, and Rutgers Chemicals AG, requested voluntary cancellation of certain creosote end-use products and/or amendments to terminate certain creosote end uses of other creosote end-use products.

Under section 6(f)(1)(A) of FIFRA, registrants may request, at any time, that their pesticide registrations be canceled or amended to terminate one or more pesticide uses. Section 6(f)(1)(B) of

FIFRA requires that before acting on a request for voluntary cancellation, EPA must provide a 30-day public comment period on the request for voluntary cancellation. In addition, section 6(f)(1)(C) of FIFRA requires that EPA provide a 180-day comment period on a request for voluntary termination of any minor agricultural use before granting the request, unless (1) the registrant requests a waiver of the comment period, or (2) the Administrator determines that continued use of the pesticide would pose an unreasonable adverse effect on the environment. The registrants have requested that EPA waive the 180-day comment period. EPA is granting the registrants' request to waive the 180-day comment period. Since publication of the Notice of Receipt on September 29, 2003 (68 FR 55952-55954), the Agency has been requested to extend

the public comment period by an additional 30 days. The Agency has considered the request and has no objection to extending the public comment period by an additional 30 days and is doing so by this notice. Accordingly, EPA will provide an additional 30-day public comment period on the requests. EPA anticipates granting the cancellation requests and requests for termination of uses shortly after the end of the additional 30-day comment period for this notice unless the Agency receives substantive comments within the comment period that would merit further review of the request, or unless the subject request for voluntary cancellation and/or use termination is withdrawn as provided herein.

The following products would be affected by the requests for voluntary cancellations:

TABLE 1.— REQUESTS FOR CANCELLATION OF PRODUCTS

| Registration No. | Product name | Chemical name |
|------------------|----------------------------------|---------------------------|
| 003008-00060 | Osmose ACC 50% Wood Preservative | Chromic acid, Cupric acid |
| 061468-00005 | Coal Tar Creosote | Creosote |
| 073408-00001 | Creosote | Creosote |
| 073408-00002 | Creosote Solution | Creosote |

The following creosote/coal tar creosote product uses would be affected by the requests for amendments to

terminate non-pressure treatment uses of the products listed in Table 2 below: home and farm use, ground line

treatment of utility poles, end cuts, piling applications/repair, pole framing and railroad tie uses/repair.

TABLE 2.— REQUEST FOR AMENDMENTS TO TERMINATE NON-PRESSURE TREATMENT USES

| Registration No. | Product name | Chemical name |

| 061483-0009 | Creosote Oil | Coal Tar Creosote |

Unless the Agency receives substantive comments within this additional public comment period that would merit further review of the request, or unless a request is withdrawn by the registrant within 30 days of publication of this notice, the

Agency intends to issue orders canceling all of these registrations and granting the amendments effecting the use terminations. Users of these pesticides or anyone else desiring the retention of a registration or particular use should contact the applicable

registrant directly before the lapse of this 30-day period.

The following Table 3 includes the names and addresses of record for all registrants of the products in Tables 1 and 2, in sequence by EPA company number:
