## FEDERAL COMMUNICATIONS COMMISSION

### 47 CFR Part 54

[CC Docket No. 96-45; DA 03-24]

## Federal-State Joint Board on Universal Service

**AGENCY:** Federal Communications Commission.

**ACTION:** Final rule.

**SUMMARY:** In this document, the Federal Communications Commission's (Commission) Wireline Competition Bureau (Bureau) adopts the Delphi version of the forward-looking cost model with certain incorporated

technical improvements, which has been translated from Turbo-Pascal computer language, for calculating high-cost universal service support for non-rural carriers. To avoid the possibility of two successive changes in support amounts within a relatively short period of time, the Bureau defers calculating support for non-rural carriers using the Delphi version of the forward-looking cost model with incorporated technical improvements until the effective date of a Commission order in the separate proceeding addressing the non-rural high-cost support methodology adopted in the Ninth Report and Order, which was remanded to the Commission by the United States Court of Appeals for the Tenth Circuit.
