

Figure 1. Specific geographic area covered by the Beaufort Sea incidental take regulations.

BILLING CODE 4310-55-C

§ 18.123 When is this subpart effective?

Regulations in this subpart are effective from November 28, 2003, through March 28, 2005, for year-round oil and gas exploration, development, and production activities.

§ 18.124 How do I obtain a Letter of Authorization?

(a) You must be a U.S. citizen as defined in § 18.27(c) of this part.

(b) If you are conducting an oil and gas exploration, development, or production activity that may cause the taking of polar bear or Pacific walrus in the specified geographic region described in § 18.122 and you want incidental take authorization under this

rule, you must apply for a Letter of Authorization for each exploration activity or a Letter of Authorization for activities in each development and production area. You must submit the application for authorization to our Alaska Regional Director (*see* 50 CFR 2.2 for address) at least 90 days prior to the start of the activity.

(c) Your application for a Letter of Authorization must include the following information:

(1) A description of the activity, the dates and duration of the activity, the specific location, and the estimated area affected by that activity.

(2) A site-specific plan to monitor the effects of the activity on the behavior of polar bear and Pacific walrus that may be present during the ongoing activity.

Your monitoring program must document the effects on these marine mammals and estimate the actual level and type of take. The monitoring requirements will vary depending on the activity, the location, and the time of year.

(3) A site-specific polar bear awareness and interaction plan.

(4) A Plan of Cooperation to mitigate potential conflicts between the proposed activity and subsistence hunting. This Plan of Cooperation must identify measures to minimize adverse effects on the availability of polar bear and Pacific walrus for subsistence uses if the activity takes place in or near a traditional subsistence hunting area.
