

Period of Review

The period of review ("POR") is July 6, 2000 through June 30, 2001.

Comparisons

We calculated export price and normal value based on the same methodology used in the Preliminary Results with the following exceptions:

- We have valued certain inputs using domestic prices in India rather than import prices;
- We are no longer using Indian Chemical Weekly ("ICW") import prices in our calculation of factor values;
- We adjusted the valuation of certain surrogate inputs in order to make them contemporaneous with the POR;
- We relied solely on the overhead and SG&A ratios from the Indian surrogate producer Alta Laboratories;
- We have recalculated Shandong's overhead ratio as a percentage of materials and energy, rather than materials, energy and labor;
- Pursuant to section 351.408(c)(3) of the Department's regulations, we valued labor using the recently updated regression-based wage rate for the PRC published by Import Administration on its website. The revised PRC estimated average hourly wage rate for 2000 is \$0.84 per hour. See www.ia.ita.doc.gov/wages/00wages/00wages.htm;
- For Jilin, we revised reported payment dates, imputed credit expenses, and quantities, where appropriate, for certain U.S. sales; and
- We corrected a ministerial error.

For a complete discussion of these changes see the February 3, 2003, "Issues and Decision Memorandum for the Final Results of the Antidumping Duty Administrative Review of Bulk Aspirin from the People's Republic of China" ("Decision Memorandum"), the February 3, 2003, company-specific calculation memorandum, and the February 3, 2003, Factors of Production Memorandum.

Analysis of Comments Received

All issues raised in the petitioner's case brief are addressed in the *Decision Memorandum* which is hereby adopted by this notice. Attached to this notice as an appendix is a list of the issues which the petitioner has raised and to which we have responded in the *Decision Memorandum*. Parties can find a complete discussion of all issues raised in this review and the corresponding recommendations in this public memorandum which is on file in the Central Records Unit, Room B-099 of the Department. Final Results of Review

We determine that the following dumping margins exist for the period July 6, 2000, through June 30, 2001:

Exporter/manufacture	Weighted-average margin percentage
Shandong Xinhua Pharmaceutical Co., Ltd. ..	0.00
Jilin Henghe Pharmaceutical Company Ltd.	0.04 (<i>de minimis</i>)

Assessment Rates

In accordance with 19 CFR 351.212(b)(1), we have calculated importer (or customer)-specific assessment rates for the merchandise subject to this review. To determine whether the duty assessment rates were *de minimis*, in accordance with the requirement set forth in 19 CFR 351.106(c)(2), we calculated importer (or customer)-specific *ad valorem* rates by aggregating the dumping margins calculated for all U.S. sales to that importer (or customer) and dividing this amount by the total value of the sales to that importer (or customer). Where an importer (or customer)-specific *ad valorem* rate was greater than *de minimis*, we calculated a per unit assessment rate by aggregating the dumping margins calculated for all U.S. sales to that importer (or customer) and dividing this amount by the total quantity sold to that importer (or customer).

All other entries of the subject merchandise during the POR will be liquidated at the antidumping duty rate in place at the time of entry.

The Department will issue appropriate assessment instructions directly to the Customs Service within 15 days of publication of these final results of review.

Cash Deposit Requirements

The following deposit rates will be effective upon publication of these final results for all shipments of bulk aspirin from the PRC entered, or withdrawn from warehouse, for consumption on or after the publication date of this notice, as provided for by section 751(a)(1) of the Act: (1) for Shandong and Jilin, which have separate rates, no antidumping duty deposit will be required; (2) for a company previously found to be entitled to a separate rate and for which no review was requested,

the cash deposit rate will be the rate established in the most recent review of that company; (3) for all other PRC exporters the cash deposit rate will be 144.02 percent, the PRC-wide rate established in the less than fair value investigation; and (4) for non-PRC exporters of subject merchandise from the PRC, the cash deposit rate will be the rate applicable to the PRC supplier of that exporter. These deposit rates shall remain in effect until publication of the final results of the next administrative review.

Notification to Importers

This notice also serves as a final reminder to importers of their responsibility under 19 CFR 351.402(f) to file a certificate regarding the reimbursement of antidumping duties prior to liquidation of the relevant entries during this review period. Failure to comply with this requirement could result in the Secretary's presumption that reimbursement of antidumping duties occurred and the subsequent assessment of doubled antidumping duties.

Notification Regarding APOs

This notice also serves as a reminder to parties subject to administrative protective orders ("APO") of their responsibility concerning the return or destruction of proprietary information disclosed under APO in accordance with 19 CFR 351.305, which continues to govern business proprietary information in this segment of the proceeding. Timely written notification of the return/destruction of APO materials or conversion to judicial protective order is hereby requested. Failure to comply with the regulations and terms of an APO is a violation which is subject to sanction.

We are issuing and publishing this determination and notice in accordance with sections section 751(a)(3) and 777(i) of the Act.

Dated: February 3, 2003.

Faryar Shirzad,

Assistant Secretary for Import Administration.
