

7. Collaborative Efforts. List and describe the current and proposed collaborations with government, health, or youth agencies, community- or faith-based organizations, minority organizations, and other researchers. Include letters of support and memoranda of understanding that specify the nature of past, present, and proposed collaborations, and the products/services/activities that will be provided by and to the applicant.

8. Data Sharing and release: Describe plans for the sharing and release of data (See AR-25 for additional information).

9. Project Budget: Provide a detailed budget for each activity undertaken, with accompanying justification of all operating expenses that is consistent with the stated objectives and planned activities of the project. This announcement does not use the modular budget format.

You are required to have a Dun and Bradstreet Data Universal Numbering System (DUNS) number to apply for a grant or cooperative agreement from the Federal government. Your DUNS number must be entered in item 11 of the face page of the PHS 398 application form. The DUNS number is a nine-digit identification number, which uniquely identifies business entities. Obtaining a DUNS number is easy and there is no charge. To obtain a DUNS number, access [www.dunandbradstreet.com](http://www.dunandbradstreet.com) or call 1-866-705-5711. For more information, see the CDC Web site at <http://www.cdc.gov/od/pgo/funding/pubcomm.htm>.

### 3. Submission Dates and Times

*LOI Deadline Date:* December 31, 2003.

*Application Deadline Date:* February 19, 2004.

#### *Explanation of Deadlines:*

Applications must be received in the CDC Procurement and Grants Office by 4 p.m. eastern time on the deadline date. If you send your application by the United States Postal Service or commercial delivery service, you must ensure that the carrier will be able to guarantee delivery of the application by the closing date and time. If CDC receives your application after closing due to: (1) Carrier error, when the carrier accepted the package with a guarantee for delivery by the closing date and time, or (2) significant weather delays or natural disasters, you will be given the opportunity to submit documentation of the carriers guarantee. If the documentation verifies a carrier problem, CDC will consider the application as having been received by the deadline.

This announcement is the definitive guide on application submission address and deadline. It supersedes information provided in the application instructions. If your application does not meet the deadline above, it will not be eligible for review, and will be discarded. You will be notified that your application did not meet the submission requirements.

CDC will not notify you upon receipt of your application. If you have a question about the receipt of your application, first contact your courier. If you still have a question, contact the PGO-TIM staff at: 770-488-2700. Before calling, please wait two to three days after the application deadline. This will allow time for applications to be processed and logged.

### 4. Intergovernmental Review of Applications

Executive Order 12372 does not apply to this program.

### 5. Funding Restrictions

Restrictions, which must be taken into account while writing your budget, are as follows: None.

If you are requesting indirect costs in your budget, you must include a copy of your indirect cost rate agreement. If your indirect cost rate is a provisional rate, the agreement must be less than 12 months of age.

### 6. Other Submission Requirements

*LOI Submission Address:* Submit your LOI by express mail delivery service, fax, or e-mail to: Robin Forbes, Centers for Disease Control and Prevention, National Center for Injury Prevention and Control, 4770 Buford Hwy, NE., Mailstop K-62, Atlanta, GA 30341, Phone: 770-488-4037, Fax: 770-488-1662, E-mail: [CIPERT@cdc.gov](mailto:CIPERT@cdc.gov).

*Application Submission Address:* Submit the original and five copies of your application by mail or express mail delivery service to: Technical Information Management-PA# 04053, CDC Procurement and Grants Office, 2920 Brandywine Road, Atlanta, GA 30341.

Applications may not be submitted electronically at this time.

## V. Application Review Information

### 1. Criteria

You are required to provide measures of effectiveness that will demonstrate the accomplishment of the various identified objectives of the cooperative agreement. Measures of effectiveness must relate to the performance goals stated in the "Purpose" section of this announcement. Measures must be objective and quantitative, and must

measure the intended outcome. These measures of effectiveness must be submitted with the application and will be an element of evaluation.

The goals of CDC-supported research are to advance the understanding of biological systems, improve the control and prevention of disease and injury, and enhance health. In the written comments, reviewers will be asked to evaluate the application in order to judge the likelihood that the proposed research will have a substantial impact on the pursuit of these goals. The scientific review group will address and consider each of the following criteria in assigning the application's overall score, weighting them as appropriate for each application. If the applicant proposes to address both research questions in a single project, the ability of the project to address each of the research questions will be evaluated separately. The application does not need to be strong in all categories to be judged likely to have major scientific impact and thus deserve a high priority score. For example, an investigator may propose to carry out important work that by its nature is not innovative, but is essential to move a field forward.

The criteria are as follows:

*Significance:* Does this study address an important problem? If the aims of the application are achieved, how will scientific knowledge be advanced? What will be the effect of these studies on the concepts or methods that drive this field?

*Approach:* Are the conceptual framework, design, methods, and analyses adequately developed, scientifically rigorous, well-integrated, and appropriate to the aims of the project? Does the applicant acknowledge potential problem areas and consider alternative tactics?

*Innovation:* Does the project employ novel concepts, approaches or methods? Are the aims original and innovative? Does the project challenge existing paradigms or develop new methodologies or technologies?

*Investigator:* Is the investigator appropriately trained and well suited to carry out this work? Is the work proposed appropriate to the experience level of the principal investigator and other researchers (if any)?

*Environment:* Does the scientific environment in which the work will be done contribute to the probability of success? Does the proposed research take advantage of unique features of the scientific environment or employ useful collaborative arrangements? Is there evidence of institutional support?

*Additional Review Criteria:* In addition to the above criteria, the
