

Producer/manufac- turer/exporter	Weighted-average margin
TKAST	5.84%

The Department shall determine, and Customs shall assess, antidumping duties on all appropriate entries. In accordance with 19 CFR 351.212(b)(1), we have calculated exporter/importer (or customer)-specific assessment rate for merchandise subject to this review. The Department will issue appraisal instructions directly to the Customs Service within 15 days of publication of these final results of review. We will direct the Customs Service to assess the resulting assessment rates against the entered customs values for the subject merchandise on each of that importer's entries during the review period. For customer's duty-assessment purposes, we will calculate importer-specific assessment rates by dividing the dumping margins calculated for each importer by the total entered value of sales for each importer during the period of review.

#### Cash Deposit Requirements

The following deposit requirements will be effective upon publication of this notice of final results of administrative review for all shipments of stainless steel sheet and strip in coils from Italy entered, or withdrawn from warehouse, for consumption on or after the date of publication, as provided by section 751(a)(1) of the Act: (1) The cash deposit rate for TKAST will be the rate shown above; (2) for previously reviewed or investigated companies not listed above, the cash deposit rate will continue to be the company-specific rate published for the most recent period; (3) if the exporter is not a firm covered in this review, a prior review, or the original less-than-fair-value (LTFV) investigation, but the manufacturer is, the cash deposit rate will be the rate established for the most recent period for the manufacturer of the merchandise; and (4) if neither the exporter nor the manufacturer is a firm covered in these or any previous reviews conducted by the Department, the cash deposit rate will be the "all others" rate, which is 11.23 percent.

These deposit requirements shall remain in effect until publication of the final results of the next administrative review.

#### Notification of Interested Parties

This notice also serves as a final reminder to importers of their responsibility under 19 CFR 351.402(f)(2) to file a certificate regarding the reimbursement of

antidumping duties prior to liquidation of the relevant entries during this review period. Failure to comply with this requirement could result in the Secretary's presumption that reimbursement of the antidumping duties or countervailing duties occurred and the subsequent assessment of double antidumping duties or countervailing duties.

This notice also serves as a reminder to parties subject to administrative protective orders ("APOs") of their responsibility concerning the return or destruction of proprietary information disclosed under APO in accordance with 19 CFR 351.305, which continues to govern business proprietary information in this segment of the proceeding. Timely written notification of the return/destruction of APO materials or conversion to judicial protective order is hereby requested. Failure to comply with the regulations and terms of an APO is a violation which is subject to sanction.

We are issuing and publishing this determination and notice in accordance with sections 751(a)(1) and 771(i) (1) of the Act.

Dated: February 3, 2003.

**Faryar Shirzad,**

*Assistant Secretary for Import Administration.*

#### Appendix—Issues in the Decision Memorandum

1. U.S. Insurance Revenue
2. H.M. Interest Revenue
3. U.S. Commissions
4. Home Market Imputed Credit
5. Cost of Production Adjustments
6. Treatment of Negative Margins
7. Skid and Freight Revenue Adjustments
8. Re-packing Expenses
9. Further Manufacturing

[Docket No. 030110008-3008-01]

#### Proposed Voluntary Product Standard PS 2-02 "Performance Standard for Wood-Based Structural-Use Panels"

**AGENCY:** National Institute of Standards and Technology, Commerce.

**ACTION:** Notice and request for comments.

**SUMMARY:** This notice advises the public that the National Institute of Standards and Technology (NIST) is distributing a proposed revision of Voluntary Product

Standard PS 2-92, "Performance Standard for Wood-Based Structural-Use Panels." This standard, prepared by the Standing Committee for PS 2, establishes criteria for assessing the acceptability of wood-based structural-use panels for construction sheathing and single-floor applications and provides a basis for common understanding among the producers, distributors, and the users of these products. Interested parties are invited to review the proposed standard and submit comments to NIST.

**DATES:** Written comments regarding the proposed revision, PS 2-02, should be submitted to the Standards Services Division, NIST, no later than April 28, 2003.

**ADDRESSES:** An electronic copy (an Adobe Acrobat File) of the proposed standard, PS 2-02, can be obtained at the following Web site <http://ts.nist.gov/ps2revision>. This site also includes an electronic copy of PS 2-92 (the existing standard), a summary of significant changes, and a form for submitting comments. Written comments on the proposed revision should be submitted to Ms. JoAnne Overman, Standards Services Division, NIST, 100 Bureau Drive, Stop 2150, Gaithersburg, MD 20899-2150. Electronic comments may be submitted to [joanne.overman@nist.gov](mailto:joanne.overman@nist.gov).

**FOR FURTHER INFORMATION CONTACT:** Ms. JoAnne Overman, Standards Services Division, National Institute of Standards and Technology, telephone: (301) 975-4037; fax: (301) 975-5414, e-mail: [joanne.overman@nist.gov](mailto:joanne.overman@nist.gov).

**SUPPLEMENTARY INFORMATION:** Proposed Voluntary Product Standard PS 2-02 establishes criteria for assessing the acceptability of wood-based structural-use panels for construction sheathing and single-floor applications. Structural-use panels include: plywood, wafer board, oriented strand board (OSB), structural particle board, and composite panels. The standard provides performance requirements, adhesive bond performance, panel construction and workmanship, dimensions and tolerances, marking, and moisture content of structural-use panels. The standard classifies panels by exposure durability and by grade. It provides test methods, a glossary of trade terms and definitions, and a quality certification program whereby agencies inspect, sample, and test products for qualification under this standard. Information regarding industry practices for reinspection is provided in an appendix.

The proposed revision to the standard "Performance Standard for Wood-Based
