

be entered in the proceeding on the petitioner's interest.

All such petitions must be filed no later than 30 days from the date of publication of this notice in the **Federal Register**. Nontimely filings will not be entertained absent a determination by the Commission, the presiding officer, or the Atomic Safety and Licensing Board designated to rule on the petition, that the petition should be granted based upon a balancing of the factors specified in 10 CFR 2.714(a)(1)(i)-(v).

The Board will convene a special prehearing conference of the parties to the proceeding and persons who have filed petitions for leave to intervene, or their counsel, to be held at such times as may be appropriate, at a place to be set by the Board for the purpose of dealing with the matters specified in 10 CFR 2.751a. Notice of this special prehearing conference will be published in the **Federal Register**. The Board will convene a prehearing conference of the parties, or their counsel, to be held subsequent to any special prehearing conference, after discovery has been completed, or within such other time as may be appropriate, at a time and place to be set by the Board for the purpose of dealing with the matters specified in 10 CFR 2.752.

Not later than fifteen (15) days prior to the holding of the special prehearing conference pursuant to § 2.751a, or if no special prehearing conference is held, fifteen (15) days prior to the holding of the first prehearing conference, the petitioner shall file a supplement to his or her petition to intervene that must include a list of the contentions which petitioner seeks to have litigated in the hearing. A petitioner who fails to file a supplement that satisfies the requirements of 10 CFR 2.714(b)(2) with respect to at least one contention will not be permitted to participate as a party. Additional time for filing the supplement may be granted based upon a balancing of the factors in 10 CFR 2.714(a)(1).

Each contention must consist of a specific statement of the issue of law or fact to be raised or controverted. In addition, the petitioner shall provide the following information with respect to each contention: (1) A brief explanation of the bases of the contention, (2) a concise statement of the alleged facts or expert opinion which support the contention and on which the petitioner intends to rely in proving the contention at the hearing, together with references to those specific sources and documents of which the petitioner is aware and on which the petitioner intends to rely to establish those facts or expert opinion,

and (3) sufficient information (which may include information pursuant to 10 CFR 2.714(b)(2)(i) and (ii)) to show that a genuine dispute exists with the applicant on a material issue of law or fact. This showing must include references to the specific portions of the application (including the applicant's environmental report and safety report) that the petitioner disputes and the supporting reasons for each dispute, or, if the petitioner believes that the application fails to contain information on a relevant matter as required by law, the identification of each failure and the supporting reasons for the petitioner's belief. On issues arising under NEPA, the petitioner shall file contentions based on the applicant's environmental report. The petitioner can amend those contentions or file new contentions if there are data or conclusions in the NRC draft or final EIS, or any supplements relating thereto, that differ significantly from the data or conclusions in the applicant's document.

The Commission, the presiding officer, or the Atomic Safety and Licensing Board designated to rule on petitions to intervene shall, in ruling on the admissibility of a contention, refuse to admit a contention if: (1) The contention and supporting material fail to satisfy the requirements of 10 CFR 2.714(b)(2); or (2) the contention, if proven, would be of no consequence in the proceeding because it would not entitle petitioner to relief.

A person permitted to intervene becomes a party to the proceeding, subject to any limitations imposed pursuant to 10 CFR 2.714(f). Unless otherwise expressly provided in the order allowing intervention, the granting of a petition for leave to intervene does not change or enlarge the issues specified in the notice of hearing.

Petitions for leave to intervene may be filed by delivery to the NRC Public Document Room at One White Flint North, 11555 Rockville Pike, Rockville, Maryland 20852-2738, or by mail addressed to the Secretary, U.S. Nuclear Regulatory Commission, Washington, DC 20555-0001; Attention: Rulemakings and Adjudication Staff. A copy of the petition should also be sent to the Assistant General Counsel for Reactor Programs, U.S. Nuclear Regulatory Commission, Washington, DC 20555-0001, Lillian M. Cuoco, Senior Counsel, Dominion Resources Services, Inc., Rope Ferry Road, Waterford, CT 06385, and to David R. Lewis, Shaw Pittman, 2300 N. Street NW., Washington, DC 20037. All petitions must be accompanied by proof of service upon all parties to the proceeding or their attorneys of record.

A person who is not a party may, in the discretion of the presiding officer, be permitted to make a limited appearance by making an oral or written statement of his position on the issues at any session of the hearing or any prehearing conference within such limits and on such conditions as may be fixed by the presiding officer, but may not otherwise participate in the proceeding.

A copy of the Dominion ESP application is available for public inspection at the Commission's Public Document Room (PDR), located at One White Flint North, 11555 Rockville Pike (first floor), Rockville, Maryland. Publicly available records are accessible from the Agencywide Documents Access and Management System (ADAMS) Public Electronic Reading Room on the Internet at the NRC Web site, <http://www.nrc.gov/reading-rm/adams.html>. The accession number for the application is ML032731517. Persons who do not have access to ADAMS, or who encounter problems in accessing the documents located in ADAMS, should contact the NRC Public Document Room staff by telephone at 1-800-397-4209, 301-415-4737 or by e-mail to pdr@nrc.gov.

Dated at Rockville, Maryland, this 25th day of November, 2003.

For the Nuclear Regulatory Commission.

Andrew L. Bates,

Acting Secretary of the Commission.

BILLING CODE 7590-01-P

NUCLEAR REGULATORY COMMISSION

[Docket No. 50-286]

Energy Nuclear Operations, Inc., Indian Point Nuclear Generating Unit No. 3, Environmental Assessment and Finding of No Significant Impact

The U.S. Nuclear Regulatory Commission (NRC) is considering issuance of an exemption from Title 10 of the Code of Federal Regulations (10 CFR) part 50, section 50.60(a) for Facility Operating License No. DPR-64, issued to Entergy Nuclear Operations, Inc. (the licensee), for operation of the Indian Point Nuclear Generating Unit No. 3 (IP3), located in Westchester County, New York. Therefore, as required by 10 CFR 51.21, the NRC is issuing this environmental assessment and finding of no significant impact.

Environmental Assessment

Identification of the Proposed Action

The proposed action would provide an exemption from the requirements of
