

Modifying Line Item 12, "Gross fair values of derivative contracts," by removing the following requirement: "The following items should be completed by those branches or agencies with total assets of \$100 million or more." The exemption from reporting the fair values of derivative contracts for branches and agencies with less than dollar;100 million in assets originated when derivatives were considered off-balance sheet items and predates FASB Statement No. 133, Accounting for Derivative Instruments and Hedging Activities (FAS 133), which took effect in 2001. FAS 133 require all derivatives to be measured at fair value and reported on the balance sheet as assets or liabilities. Because branches and agencies with less than dollar;100 million in assets that have derivatives now have to regularly determine their fair value for reporting purposes, they have the information necessary to disclose the fair value of their derivatives in Schedule L. Accordingly, the agencies are proposing to eliminate this disclosure exemption. The fair value data on derivatives will complement the data that branches and agencies with less than \$100 million in assets currently report on the notional amount of their derivative contracts.

**Schedule M—Due from/Due to Related Institutions in the U.S. and in Foreign Countries (CONFIDENTIAL)**

1. Modifying Line Item 12, "Gross fair values of derivative contracts," by removing the following requirement: "The following items should be completed by those branches or agencies with total assets of \$100 million or more." The rationale for the proposed change is similar to the justification above for the comparable change to Schedule L.

2. Adding Memoranda items 1.a, "Gross positive fair value," and 1.b, "Gross negative fair value" to Memorandum item 1, "Notional amount of all credit derivatives on which the reporting branch or agency is the guarantor." The new items would provide a better measure of credit and market risk for credit derivatives entered into with related depository institutions, particularly for branches and agencies with large positions in such credit derivatives.

3. Adding Memoranda items 2.a, "Gross positive fair value," and 2.b, "Gross negative fair value" to Memorandum item 2, "Notional amount of all credit derivatives on which the reporting branch or agency is the beneficiary." The rationale for the proposed change is the same as the justification above for adding items to Memorandum item 1.
