

price-to-price or price-to-constructed value comparisons. This is consistent with Department practice. See, e.g., *Notice of Final Determination of Sales at Less than Fair Value: Grain-Oriented Electrical Steel from Italy*, 59 FR 33952 (July 1, 1994), *Notice of Final Determination of Sales at Less than Fair Value: Certain Cold-Rolled Carbon Steel Flat Products from Venezuela*, 67 FR 62119 (October 3, 2002), and *Notice of Final Results of Antidumping Duty Administrative Review: Certain Cut-to-Length Carbon Steel Plate from Mexico*, 64 FR 76, 77–78 (January 4, 1999).

Accordingly, we have assigned to Cablesa the highest margin stated in the notice of initiation for Mexico. See *Notice of Initiation of Antidumping Duty Investigations: Prestressed Concrete Steel Wire Strand From Brazil, India, the Republic of Korea, Mexico, and Thailand*, 68 FR 9050 (February 27, 2003). We corroborated this margin in the preliminary determination and we continue to find this margin corroborated, pursuant to section 776(c) of the Act. See Memoranda regarding corroboration of data contained in the petition for assigning facts available rates, dated July 10, 2003.

Critical Circumstances

For the final determination, based on company-specific shipment data submitted to the Department, we have found that critical circumstances do not exist for either Camesa or Cablesa because there were no massive imports with respect to either respondent. We have also found that critical circumstances do not exist for any companies in the "All Others" category. See *Memorandum from Daniel O'Brien, International Trade Compliance Analyst, to Gary Taverman, Director, Office 5, Re: Final Negative Determination of Critical Circumstances and Decision Memorandum at Comment 8*. See, also, *Memorandum from Daniel O'Brien and Jim Kemp, International Trade Compliance Analysts, to Gary Taverman, Director, Office 5, Re: Verification of the Sales Response of Cablesa S.A. de C.V. in the Investigation of Prestressed Concrete Steel Wire Strand from Mexico* dated October 7, 2003, at 22–23.

Verification

As provided in section 782(i) of the Act, we conducted verification of the cost and sales information submitted by Camesa and Cablesa. We used standard verification procedures including examination of relevant accounting and production records, and original source documents provided by the respondent.

Analysis of Comments Received

All issues raised in the case and rebuttal briefs submitted by parties to this proceeding are listed in the appendix to this notice and addressed in the Decision Memorandum hereby adopted by this notice. The *Decision Memorandum* is on file in room B-099 of the main Department building. In addition, a complete version of the *Decision Memorandum* can be accessed directly on the World Wide Web at www.ita.doc.gov/import_admin/records/frn. The paper and electronic versions of the *Decision Memorandum* are identical in content.

Changes Since The Preliminary Determination

Based on our findings at verification and our analysis of comments received, we have made adjustments to the preliminary determination calculation methodologies in calculating the final dumping margin for Camesa. These adjustments are discussed in the *Decision Memorandum* for this investigation.

Continuation of Suspension of Liquidation

In accordance with section 735(c)(1)(B) of the Act, we are directing Customs and Border Patrol (CBP) to continue to suspend liquidation of all entries of PC strand exported from Mexico, that are entered, or withdrawn from warehouse, for consumption on or after the date of the preliminary determination. CBP shall continue to require a cash deposit or the posting of a bond based on the estimated weighted-average dumping margins shown below. The suspension of liquidation instructions will remain in effect until further notice. Because the Department now determines that critical circumstances do not exist for either respondent, the retroactive suspension of liquidation ordered at the preliminary determination is terminated. CBP shall return all bonds and/or cash deposits posted for entries of PC strand produced and exported by Cablesa during the critical circumstances period (i.e. April 18, 2003, to July 17, 2003).

We determine that the following weighted-average dumping margins exist for Mexico:

Manufacturer/exporter	Margin (percent)
Camesa	62.78
Cablesa	77.20
All Others	62.78

International Trade Commission Notification

In accordance with section 735(d) of the Act, we have notified the International Trade Commission (ITC) of our determination. The ITC will determine, within 45 days, whether imports of subject merchandise from Mexico are causing material injury, or threaten material injury, to an industry in the United States. If the ITC determines that material injury or threat of material injury does not exist, this proceeding will be terminated and all securities posted will be refunded or canceled. If the ITC determines that such injury does exist, the Department will issue an antidumping order directing CBP officials to assess antidumping duties on all imports of the subject merchandise entered, or withdrawn from warehouse for consumption on or after the effective date of the suspension of liquidation.

This notice also serves as a reminder to parties subject to administrative protective order (APO) of their responsibility concerning the disposition of proprietary information disclosed under APO in accordance with 19 CFR 351.305. Timely notification of return/destruction of APO materials or conversion to judicial protective order is hereby requested. Failure to comply with the regulations and the terms of an APO is a sanctionable violation.

This determination is issued and published in accordance with sections 735(d) and 777(i)(1) of the Act.

Dated: December 1, 2003.

James J. Jochum,

Assistant Secretary for Import Administration.
