II. Background

A. What Action is the Agency Taking?

This Order follows up a June 27, 2003, notice of receipt of written requests by Agrilience, LLC; Dow AgroSciences, LLC; and RiceCo, LLC to voluntarily amend or cancel their product registrations to terminate the use of propanil on small grains (68 FR 38328) (FRL-7310-6). For fenamiphos, this Order follows up a September 27, 2002 (67 FR 61098) (FRL-7274-2), notice of receipt of a request from Bayer CropScience to voluntarily cancel all their registrations for products containing fenamiphos.

As part of these notices, the Agency indicated that it would issue an Order granting the voluntary product and use registration amendments or cancellations unless the Agency received substantive comment within the respective 30-day public comment periods that would merit its further review of these requests. EPA did not receive any comments specific to these cancellations. Accordingly, the Agency hereby issues in this notice a Cancellation Order granting the requested amendments or cancellations for propanil and fenamiphos registrations. Any distribution, sale or use of the products subject to this Cancellation Order is only permitted in accordance with the terms of the existing stocks provisions of this Cancellation Order.
