

services for a diverse public. This goal will be accomplished in part by promoting access to learning and information resources held by museums and libraries through electronic linkages. IMLS is seeking assistance in developing specific plans to collect information from the US library and museum communities to assess the digitization readiness and capacity of libraries and the technological readiness and capacity of museums. These information collections will be developed based on the varying characteristics of each community. A great deal of information has been collected on the internet access of libraries for internal and public access. The information IMLS collects should build on but not duplicate existing or ongoing collections.

**NUCLEAR REGULATORY COMMISSION**

[Docket Nos. 50-237, 50-249]

**Exelon Generation Company, LLC, Dresden Nuclear Power Station, Units 2 and 3; Notice of Availability of Draft Supplement 17 to Generic Environmental Impact Statement and Public Meeting for the License Renewal of Dresden Nuclear Power Station, Units 2 and 3**

Notice is hereby given that the Nuclear Regulatory Commission (the Commission) has published a draft plant-specific supplement to the

Generic Environmental Impact Statement (GEIS), NUREG-1437, regarding the renewal of operating licenses DPR-19 and DPR-25 for an additional 20 years of operation at Dresden Nuclear Power Station (DNPS). DNPS is located in Grundy County, Illinois, approximately 8 miles east of Morris, Illinois. Possible alternatives to the proposed action (license renewal) include no action and reasonable alternative energy sources.

The draft supplement to the GEIS is available for public inspection in the NRC's Public Document Room (PDR) located at One White Flint North, 11555 Rockville Pike (first floor), Rockville, Maryland, or, electronically, from the Publicly Available Records (PARS) component of NRC's Agencywide Documents Access and Management System (ADAMS). ADAMS is accessible from the NRC Web site at <http://www.nrc.gov/reading-rm.html> (the NRC's Electronic Reading Room). Persons who do not have access to ADAMS or who encounter problems in accessing the documents located in ADAMS, should contact the NRC's PDR reference staff at 1-800-397-4209 or 301-415-4737, or by e-mail to [pdr@nrc.gov](mailto:pdr@nrc.gov). In addition, the Morris Area Public Library, located at 604 West Liberty Street, Morris, Illinois; and the Coal City Public Library District, located at 85 North Garfield Street, Coal City, Illinois, have agreed to make the draft supplement to the GEIS available for public inspection.

Any interested party may submit comments on the draft supplement to the GEIS for consideration by the NRC staff. To be certain of consideration, comments on the draft supplement to the GEIS and the proposed action must be received by February 24, 2004. Comments received after the due date will be considered if it is practical to do so, but the NRC staff is able to assure consideration only for comments received on or before this date. Written comments on the draft supplement to the GEIS should be sent to: Chief, Rules and Directives Branch, Division of Administrative Services, Office of Administration, Mailstop T-6D59, U.S. Nuclear Regulatory Commission, Washington, DC 20555-0001.

Comments may be hand-delivered to the NRC at 11545 Rockville Pike, Rockville, Maryland, between 7:45 a.m. and 4:15 p.m. on Federal workdays. Electronic comments may be submitted to the NRC by e-mail at [DresdenEIS@nrc.gov](mailto:DresdenEIS@nrc.gov). All comments received by the Commission, including those made by Federal, State, and local agencies, Native American Tribes, or other interested persons, will be made

available electronically at the Commission's PDR in Rockville, Maryland, and from the PARS component of ADAMS.

The NRC staff will hold a public meeting to present an overview of the draft plant-specific supplement to the GEIS and to accept public comments on the document. The public meeting will be held on January 14, 2004, at Jennifer's Garden Banquet and Convention Center located at 555 West Gore Road, Morris, Illinois. There will be two sessions to accommodate interested parties. The first session will commence at 1:30 p.m. and will continue until 4:30 p.m. The second session will commence at 7 p.m. and will continue until 10 p.m. Both meetings will be transcribed and will include: (1) A presentation of the contents of the draft plant-specific supplement to the GEIS, and (2) the opportunity for interested government agencies, organizations, and individuals to provide comments on the draft report. Additionally, the NRC staff will host informal discussions one hour prior to the start of each session at the same location. No comments on the draft supplement to the GEIS will be accepted during the informal discussions. To be considered, comments must be provided either at the transcribed public meeting or in writing, as discussed below. Persons may pre-register to attend or present oral comments at the meeting by contacting Mr. Louis L. Wheeler by telephone at 1-800-368-5642, extension 1444, or by e-mail at [dxw@nrc.gov](mailto:dxw@nrc.gov) no later than January 8, 2004. Members of the public may also register to provide oral comments within 15 minutes of the start of each session. Individual, oral comments may be limited by the time available, depending on the number of persons who register. If special equipment or accommodations are needed to attend or present information at the public meeting, the need should be brought to Mr. Wheeler's attention no later than January 8, 2004, to provide the NRC staff adequate notice to determine whether the request can be accommodated.

**FOR FURTHER INFORMATION CONTACT:** Mr. Louis L. Wheeler, License Renewal and Environmental Impacts Program, Division of Regulatory Improvement Programs, U.S. Nuclear Regulatory Commission, Mail Stop: O-11F1, Washington, DC 20555-0001.
