

provided by PCXE Rule 7.7(b), all orders at all price levels will continue to be displayed on an anonymous basis. Therefore, a User could choose to either display its ETPID or remain anonymous.

Additionally, the Exchange proposes to revise PCXE Rule 7.7(a)<sup>8</sup> to reflect the proposed changes to PCXE Rules 7.7(b) and 7.36(b).

In the proposed rule change, the PCX represented that identity orders would be centrally processed for execution by computer, subject to the same price, time, and priority rules that govern the automated matching and execution of orders. According to the PCX, the use of identity orders on ArcaEx would not confer ETP Holders any time and place advantages over other orders on ArcaEx, and would therefore comply with the requirements and policy concerns underlying section 11(a) of the Act.<sup>9</sup> The PCX also represented that the proposed rule change would not alter the responsibilities of market makers and would not change the manner in which market maker orders are processed and executed within ArcaEx. Finally, the PCX represented that PCXE has developed procedures to maintain a high level of surveillance of ETP Holders and their use of specific order types, including mechanisms to help detect manipulation of prices on ArcaEx, through the use of identity orders or otherwise.

Based, in part, on the PCX's representations, the Commission is approving the PCX's introduction of the identity order feature. The Commission finds that the proposed rule change, as amended, is consistent with the requirements of section 6 of the Act<sup>10</sup> and the rules and regulations thereunder applicable to a national securities exchange.<sup>11</sup> In particular, the Commission finds that the identity order feature is consistent with section 6(b)(5) of the Act,<sup>12</sup> which requires, among other things, that the Exchange's rules be designed to perfect the mechanisms of a free and open market and, in general, to protect investors and the public interest. The Commission

believes that providing ETP Holders with the ability to display their identity on an order-by-order basis will add to market transparency by offering market participants the option of anonymity in placing orders on the PCX.

## V. Conclusion

It is therefore ordered, pursuant to section 19(b)(2) of the Act,<sup>13</sup> that the proposed rule change (SR-PCX-2003-46), is approved, as amended.

For the Commission, by the Division of Market Regulation, pursuant to delegated authority.<sup>14</sup>
