

projects, and individual hobbyists who collect, grow, exhibit, preserve, exchange, and donate special nursery stocks and seeds could also be affected. The exact present size and number of these entities are difficult to determine.

Since Atlanta, GA, and Agana, GU, already serve as ports of entry for other restricted articles and have the capacity and resources to handle the importation of nursery stock and seeds, no effect on Federal Government processing of permits and inspection of imported materials is expected. Also, no effects on other Federal agencies and State and local governments are expected. Since imports of these materials are a small fraction of the total domestic supply of nursery stock and seeds, no substantial change in supply and price is expected.

Under these circumstances, the Administrator of the Animal and Plant Health Inspection Service has determined that this action will not have a significant economic impact on a substantial number of small entities.
