

the final results. These changes are discussed in the following Comments in the *Decision Memorandum* or in the referenced final calculation memoranda for particular companies:

All Companies

Certain adjustments were made to the overhead, SG&A, and profit ratios. See *Decision Memorandum* at Comment 5.

CPZ

In the *Preliminary Results* we used data on Japanese exports to India to value the hot-rolled alloy steel used by CPZ to manufacture the subject merchandise. For these final results, we revised this surrogate value. Instead, we relied on data for Japanese exports to Indonesia to value the hot-rolled alloy steel used to manufacture the subject merchandise. See *Decision Memorandum* at Comment 3 and the *Memorandum from Team to Susan Kuhbach: "Factors of Production Values Used for the Final Results,"* dated December 11, 2003.

Yantai Timken

We revised Yantai Timken's final results calculations to correct several minor reporting and clerical errors noted by Yantai Timken in its case brief. See *Memorandum from Case Analyst to File, "Final Results Calculation Memorandum for Yantai Timken Company, Ltd."* ("Yantai Timken's *Calc Memo*"), dated December 11, 2003, which is on file in the Department's CRU.

As noted in the *Preliminary Results*, and consistent with our treatment of subsidized inputs in *TRBs XIV*, *TRBs XIII*, and *TRBs XII*, we do not use the prices paid by PRC producers of TRBs for inputs that we have a reason to believe or suspect are subsidized. Accordingly, for a particular input that Yantai Timken purchased from a market economy country, for these final results, we have used a surrogate value instead of the market price paid by Yantai Timken and used in the *Preliminary Results*. (See *Yantai Timken's Calc Memo* for a more detailed discussion of this issue.)

Final Results of Review

We determine that the following dumping margins exist for the period June 1, 2000, through May 31, 2001:

Exporter/manufacturer	Weighted-average margin percentage
Peer Bearing Company - Changshan	0.00
Yantai Timken Co., Ltd.	18.75
PRC-wide rate	33.18

Assessment Rates

In accordance with 19 CFR § 351.212(b)(1), we have calculated importer (or customer)-specific assessment rates for the merchandise subject to this review. To determine whether the duty assessment rates were *de minimis*, in accordance with the requirement set forth in 19 CFR § 351.106(c)(2), we calculated importer (or customer)-specific *ad valorem* rates by aggregating the dumping margins calculated for all U.S. sales to that importer (or customer) and dividing this amount by the total value of the sales to that importer (or customer). Where an importer (or customer)-specific *ad valorem* rate was greater than *de minimis*, we calculated a per unit assessment rate by aggregating the dumping margins calculated for all U.S. sales to that importer (or customer) and dividing this amount by the total quantity sold to that importer (or customer). Where an importer (or customer)-specific *ad valorem* rate was *de minimis*, we will order the Customs Service to liquidate without regard to antidumping duties.

All other entries of the subject merchandise during the POR will be liquidated at the antidumping duty rate in place at the time of entry.

The Department will issue appropriate assessment instructions directly to U.S. Customs and Border Protection ("CBP") within 15 days of publication of these final results of review.

Cash Deposit Requirements

The following cash deposit rates will be effective upon publication of these final results for all shipments of TRBs from the PRC entered, or withdrawn from warehouse, for consumption on or after the publication date of this notice, as provided for by section 751(a)(1) of the Act: (1) the cash deposit rates for the reviewed companies will be the rates shown above except that, for firms whose weighted-average margins are less than 0.5%, and therefore, *de minimis*, the Department shall require no deposit of estimated antidumping duties; (2) for a company previously found to be entitled to a separate rate and for which no review was requested, the cash deposit rate will be the rate established in the most recent review of that company; (3) for all other PRC exporters of subject merchandise, the rate will be the PRC country-wide rate, which is 33.18 percent; and (4) for non-PRC exporters of subject merchandise from the PRC, the cash deposit rate will be the rate applicable to the PRC exporter that supplied that exporter.

These deposit rates shall remain in effect until publication of the final results of the next administrative review.

Notification to Importers

This notice also serves as a final reminder to importers of their responsibility under 19 CFR § 351.402(f) to file a certificate regarding the reimbursement of antidumping duties prior to liquidation of the relevant entries during this review period. Failure to comply with this requirement could result in the Secretary's presumption that reimbursement of antidumping duties occurred and the subsequent assessment of doubled antidumping duties.

Notification Regarding APOs

This notice also serves as a reminder to parties subject to administrative protective orders ("APO") of their responsibility concerning the return or destruction of proprietary information disclosed under APO in accordance with 19 CFR § 351.305, which continues to govern business proprietary information in this segment of the proceeding. Timely written notification of the return/destruction of APO materials or conversion to judicial protective order is hereby requested. Failure to comply with the regulations and terms of an APO is a violation which is subject to sanction.

We are issuing and publishing this determination and notice in accordance with sections section 751(a)(1) and 771(i) of the Act.

Dated: December 11, 2003.

James J. Jochum,

Assistant Secretary for Import Administration.

Appendix

List of Comments and Issues in the *Decision Memorandum*

Comment 1: Peer Bearing Company - Changshan's ("CPZ") Market Economy Steel

Comment 2: Valuing the Steel Input Used by CPZ to Manufacture Cups and Cones

Comment 3: Cups and Cones Surrogate Value: Japanese Exports to India Versus to Indonesia

Comment 4: Correct the Surrogate Value Calculated Using Japanese Exports to India

Comment 5: Financial Ratios: HMT's Financial Records and Calculate Using a Simple Average

Comment 6: Discontinue Excluding Negative Dumping Margins

Comment 7: Amelioration of the Anomalous Situation Arising from the
