

Conservation Measure 10-03 on so entering;

(d) the chartering of vessels included in the IUU Vessel List is prohibited;

(e) granting of their flag to vessels appearing in the IUU Vessel List is refused;

(f) imports of *Dissostichus* spp. from vessels included in the IUU Vessel List are prohibited;

(g) 'Export or Re-export Government Authority Validation' is not verified when the shipment (of *Dissostichus* spp.) is declared to have been caught by any vessel included in the IUU Vessel List;

(h) importers, transporters and other sectors concerned, are encouraged to refrain from negotiating and from transhipping of fish caught by vessels appearing in the IUU Vessel List;

(i) any appropriate information is collected and exchanged with other Contracting Parties or cooperating non-Contracting Parties, entities or fishing entities with the aim of detecting, controlling and preventing the use of false import/export certificates regarding fish from vessels appearing in the IUU Vessel List.

12. The Executive Secretary shall place the IUU Vessel List on a secure section of the CCAMLR website.

13. The Commission shall request those non-Contracting Parties identified pursuant to paragraph 2, to immediately take steps to address the IUU fishing activities of the vessels flying their flag that have been included in the IUU Vessel List, including if necessary, the withdrawal of the registration or of the fishing licenses of these vessels, the nullification of the relevant catch documents and denial of further access to the Catch Documentation Scheme for *Dissostichus* spp. (CDS), and to inform the Commission of the measures taken in this respect.

14. Contracting Parties shall jointly and/or individually request non-Contracting Parties identified pursuant to paragraph 2, to cooperate fully with the Commission in order to avoid undermining the effectiveness of conservation measures adopted by the Commission.

15. The Commission shall review, at subsequent annual meetings as appropriate, actions taken by those non-Contracting Parties identified pursuant to paragraph 2 to which requests have been made pursuant to paragraphs 13 and 14, and identify those which have not rectified their fishing activities.

16. The Commission shall decide appropriate measures to be taken in respect to *Dissostichus* spp. so as to address these issues with those identified non-Contracting Parties. In

this respect, non-Contracting Parties may cooperate to adopt appropriate multilaterally agreed trade-related measures, consistent with the World Trade Organization (WTO), that may be necessary to prevent, deter and eliminate the IUU fishing activities identified by the Commission. Multilateral trade-related measures may be used to support cooperative efforts to ensure that trade in *Dissostichus* spp. and its products does not in any way encourage IUU fishing or otherwise undermine the effectiveness of CCAMLR's conservation measures which are consistent with the United Nations Convention on the Law of the Sea 1982.

CONSERVATION MEASURE 23-01 (2003)

Five-day Catch and Effort Reporting System

This conservation measure is adopted in accordance with Conservation Measure 31-01 where appropriate:

1. For the purposes of this Catch and Effort Reporting System the calendar month shall be divided into six reporting periods, viz: day 1 to day 5, day 6 to day 10, day 11 to day 15, day 16 to day 20, day 21 to day 25 and day 26 to the last day of the month. These reporting periods are hereinafter referred to as periods A, B, C, D, E and F.

2. At the end of each reporting period, each Contracting Party shall obtain from each of its vessels its total catch and total days and hours fished for that period and shall, by cable, telex or facsimile, transmit the aggregated catch and days and hours fished for its vessels. The catch and effort data shall reach the Executive Secretary not later than five (5) days after the end of the reporting period, or in the case of exploratory fisheries, not later than two (2) working days after the end of the reporting period. In the case of longline fisheries, the number of hooks shall also be reported.

3. A report must be submitted by every Contracting Party taking part in the fishery for each reporting period for the duration of the fishery even if no catches are taken.

4. The catch of all species, including by-catch species, must be reported.

5. Such reports shall specify the month and reporting period (A, B, C, D, E or F) to which each report refers.

6. Immediately after the deadline has passed for receipt of the reports for each period, the Executive Secretary shall notify all Contracting Parties engaged in fishing activities in the area, of the total catch taken during the reporting period,

the total aggregate catch for the season to date together with an estimate of the date upon which the total allowable catch is likely to be reached for that season. In the case of exploratory fisheries, the Executive Secretary shall also notify total aggregate catch for the season to date in each small-scale research unit (SSRU) together with an estimate of the date upon which the total allowable catch is likely to be reached in each SSRU for that season. Estimates shall be based on a projection forward of the trend in daily catch rates, obtained using linear regression techniques from a number of the most recent catch reports.

7. At the end of every six reporting periods, the Executive Secretary shall inform all Contracting Parties of the total catch taken during the six most recent reporting periods, the total aggregate catch for the season to date together with an estimate of the date upon which the total allowable catch is likely to be reached for that season.

8. If the estimated date of completion of the total allowable catch, is within five days of the date on which the Secretariat received the report of the catches, the Executive Secretary shall inform all Contracting Parties that the fishery will close on that estimated day or on the day on which the report was received, whichever is the later. In the case of exploratory fisheries, if the estimated date of completion of the catch in any SSRU is within five days of the day on which the Secretariat received the report of catches, the Executive Secretary shall additionally inform all Contracting Parties that fishing in that SSRU will be prohibited from that calculated day, or on the day on which the report was received, whichever is the later.

9. Should a Contracting Party fail to transmit a report to the Executive Secretary in the appropriate form by the deadline specified in paragraph 2, the Executive Secretary shall issue a reminder to the Contracting Party. If at the end of a further two five-day periods, or, in the case of exploratory fisheries, a further one five-day period, those data have still not been provided, the Executive Secretary shall notify all Contracting Parties of the closure of the fishery to the vessel which has failed to supply the data as required and the Contracting Party concerned shall require the vessel to cease fishing. If the Executive Secretary is notified by the Contracting Party that the failure of the vessel to report is due to technical difficulties, the vessel may resume fishing once the report or explanation concerning the failure has been submitted.
