Gino M. Tosi, Marketing Specialist, Order Formulation and Enforcement, USDA/AMS/Dairy Programs, Stop 0231—Room 2968, 1400 Independence Avenue, Washington, DC 20250—0231, (202) 690—1366, e-mail: gino.tosi@usda.gov.

SUPPLEMENTARY INFORMATION: This administrative rule is governed by the provisions of Sections 556 and 557 of Title 5 of the United States Code and, therefore, is excluded from the requirements of Executive Order 12866.

This interim rule has been reviewed under Executive Order 12988, Civil Justice Reform. This rule is not intended to have retroactive effect. This rule will not preempt any state or local laws, regulations, or policies, unless they present an irreconcilable conflict with the rule.

The Agricultural Marketing Agreement Act of 1937, as amended (7 U.S.C. 601–674), provides that administrative proceedings must be exhausted before parties may file suit in court. Under section 608c(15)(A) of the Act, any handler subject to an order may request modification or exemption from such order by filing with the Secretary a petition stating that the order, any provision of the order, or any obligation imposed in connection with the order is not in accordance with the law. A handler is afforded the opportunity for a hearing on the petition. After a hearing, the Department would rule on the petition. The Act provides that the District Court of the United States in any district in which the handler is an inhabitant, or has its principal place of business, has jurisdiction in equity to review the Department's ruling on the petition, provided a bill in equity is filed not later than 20 days after the date of the entry of the ruling.

Small Business Consideration

In accordance with the Regulatory Flexibility Act (5 U.S.C. 601 *et seq.*), the Agricultural Marketing Service has considered the economic impact of this action on small entities and has certified that this interim rule will not have a significant economic impact on a substantial number of small entities. For the purpose of the Regulatory Flexibility Act, a dairy farm is considered a “small business” if it has an annual gross revenue of less than \$750,000, and a dairy products manufacturer is a “small

business” if it has fewer than 500 employees.

For the purposes of determining which dairy farms are “small businesses,” the \$750,000 per year criterion was used to establish a production guideline of 500,000 pounds per month. Although this guideline does not factor in additional monies that may be received by dairy producers, it should be an inclusive standard for most “small” dairy farmers. For purposes of determining a handler's size, if the plant is part of a larger company operating multiple plants that collectively exceed the 500-employee limit, the plant will be considered a large business even if the local plant has fewer than 500 employees.

Approximately 9,695 of the 10,108 dairy producers (farmers), or 95.9 percent, whose milk was pooled under the Central Federal milk order at the time of the hearing, November 2001, would meet the definition of small businesses. On the processing side, approximately 10 of the 56 milk plants associated with the Central milk order during November 2001 would qualify as “small businesses,” constituting about 17.9 percent of the total.

Based on these criteria, more than 95 percent of the producers would be considered as small businesses. The adoption of the proposed pooling standards serves to revise established criteria that determine those producers, producer milk, and plants that have a reasonable association with, and are consistently serving the fluid needs of, the Central milk marketing area and are not associated with other marketwide pools concerning the same milk. Criteria for pooling are established on the basis of performance levels that are considered adequate to meet the Class I fluid needs and, by doing so, determine those that are eligible to share in the revenue that arises from the classified pricing of milk. Criteria for pooling are established without regard to the size of any dairy industry organization or entity. The criteria established are applied in an identical fashion to both large and small businesses and do not have any different economic impact on small entities as opposed to large entities. Therefore, the proposed amendments will not have a significant economic impact on a substantial number of small entities.

Prior documents in this proceeding:

Notice of Hearing: Issued October 17, 2001; published October 23, 2001 (66 FR 53551).

Tentative Final Decision: Issued November 8, 2002; published November 19, 2002 (67 FR 69910).

Findings and Determinations

The findings and determinations hereinafter set forth supplement those that were made when the Central order was first issued and when it was amended. The previous findings and determinations are hereby ratified and confirmed, except where they may conflict with those set forth herein.

The following findings are hereby made with respect to the Central marketing order:

(a) *Findings upon the basis of the hearing record.* Pursuant to the provisions of the Agricultural Marketing Agreement Act of 1937, as amended (7 U.S.C. 601–674), and the applicable rules of practice and procedure governing the formulation of marketing agreements and marketing orders (7 CFR part 900), a public hearing was held upon certain proposed amendments to the tentative marketing agreement and to the order regulating the handling of milk in the Central marketing area.

Upon the basis of the evidence introduced at such hearing and the record thereof it is found that:

(1) The Central order, as hereby amended on an interim basis, and all of the terms and conditions thereof, will tend to effectuate the declared policy of the Act;

(2) The parity prices of milk, as determined pursuant to section 2 of the Act, are not reasonable in view of the price of feeds, available supplies of feeds, and other economic conditions which affect market supply and demand for milk in the marketing area, and the minimum prices specified in the order, as hereby amended on an interim basis, are such prices as will reflect the aforesaid factors, insure a sufficient quantity of pure and wholesome milk, and be in the public interest; and

(3) The Central order, as hereby amended on an interim basis, regulates the handling of milk in the same manner as, and is applicable only to persons in the respective classes of industrial and commercial activity specified in, a marketing agreement upon which a hearing has been held.

(b) *Additional Findings.* It is necessary and in the public interest to make these interim amendments to the Central order effective March 1, 2003. Any delay beyond that date would tend to disrupt the orderly marketing of milk in the aforesaid marketing areas.

The interim amendments to these orders are known to handlers. The final decision containing the proposed amendments to these orders was issued on November 8, 2002.

The changes that result from these amendments will not require extensive
