

published on June 27, 2003, (68 FR 38464). Because this rule relates to public lands managed by an agency or agencies in both the Departments of Agriculture and the Interior, identical closures and adjustments would apply to 36 CFR part 242 and 50 CFR part 100.

The Alaska Department of Fish and Game (ADF&G), under the direction of the Alaska Board of Game (BOG) and the Board of Fisheries (BOF), manages sport, commercial, personal use, and State subsistence harvest on all lands and waters throughout Alaska. However, on Federal lands and waters, the Federal Subsistence Board implements a subsistence priority for rural residents as provided by Title VIII of ANILCA. In providing this priority, the Federal Board may, when necessary, preempt State harvest regulations for fish or wildlife on Federal lands and waters.

This adjustment is necessary because of the need to protect a declining moose population in a portion of Unit 22. This action is authorized and in accordance with 50 CFR 100.19(d-e) and 36 CFR 242.19(d-e).

Unit 22(A)—Moose

In 2003 recruitment surveys were completed by ADF&G and BLM in the Golsovia River drainage and on the main stems of the Unalakleet, Shaktoolik and Ungalik river drainages for comparison to similar Unit 22(A) surveys completed in 2000. In all drainages surveyed, except the Golsovia, considerably fewer moose were seen in 2003 than in 2000. This information points to a substantial decline in moose numbers in Unit 22(A) especially the population north of the Golsovia River. Current Federal regulations provide opportunity to harvest bull moose in the affected area December 1 through January 31. This Board action closes the moose season in a portion of Unit 22(A) north of the Golsovia River drainage, closes the winter season in the remainder of Unit 22(A) at the end of December, and changes the harvest limit in remainder of Unit 22(A) to antlered bulls only. ADF&G has executed an Emergency Order for a similar adjustment of the State moose season on private lands in response to the ongoing population declines.

The Board finds that additional public notice and comment requirements under the Administrative Procedure Act (APA) for this adjustment is impracticable, unnecessary, and contrary to the public interest. Lack of appropriate and immediate measures could seriously affect the continued viability of wildlife populations, adversely impact subsistence

opportunities for rural Alaskans, and would generally fail to serve the overall public interest. Therefore, the Board finds good cause pursuant to 5 U.S.C. 553(b)(3)(B) to waive additional public notice and comment procedures prior to implementation of this action and pursuant to 5 U.S.C. 553(d)(3) to make this rule effective as indicated in the **DATES** section.

Conformance with Statutory and Regulatory Authorities

National Environmental Policy Act Compliance

A Final Environmental Impact Statement (FEIS) was published on February 28, 1992, and a Record of Decision on Subsistence Management for Federal Public Lands in Alaska (ROD) was signed April 6, 1992. The final rule for Subsistence Management Regulations for Public Lands in Alaska, Subparts A, B, and C (57 FR 22940–22964, published May 29, 1992) implemented the Federal Subsistence Management Program and included a framework for an annual cycle for subsistence hunting and fishing regulations. A final rule that redefined the jurisdiction of the Federal Subsistence Management Program to include waters subject to the subsistence priority was published on January 8, 1999, (64 FR 1276.)

Compliance with Section 810 of ANILCA

The intent of all Federal subsistence regulations is to accord subsistence uses of fish and wildlife on public lands a priority over the taking of fish and wildlife on such lands for other purposes, unless restriction is necessary to conserve healthy fish and wildlife populations. A Section 810 analysis was completed as part of the FEIS process. The final Section 810 analysis determination appeared in the April 6, 1992, ROD which concluded that the Federal Subsistence Management Program, under Alternative IV with an annual process for setting hunting and fishing regulations, may have some local impacts on subsistence uses, but the program is not likely to significantly restrict subsistence uses.

Paperwork Reduction Act

The adjustment and emergency closure do not contain information collection requirements subject to Office of Management and Budget (OMB) approval under the Paperwork Reduction Act of 1995.

Other Requirements

The adjustments have been exempted from OMB review under Executive Order 12866.

The Regulatory Flexibility Act of 1980 (5 U.S.C. 601 *et seq.*) requires preparation of flexibility analyses for rules that will have a significant effect on a substantial number of small entities, which include small businesses, organizations, or governmental jurisdictions. The exact number of businesses and the amount of trade that will result from this Federal land-related activity is unknown. The aggregate effect is an insignificant economic effect (both positive and negative) on a small number of small entities supporting subsistence activities, such as firearm, ammunition, and gasoline dealers. The number of small entities affected is unknown; but, the effects will be seasonally and geographically-limited in nature and will likely not be significant. The Departments certify that the adjustments will not have a significant economic effect on a substantial number of small entities within the meaning of the Regulatory Flexibility Act. Under the Small Business Regulatory Enforcement Fairness Act (5 U.S.C. 801 *et seq.*), this rule is not a major rule. It does not have an effect on the economy of \$100 million or more, will not cause a major increase in costs or prices for consumers, and does not have significant adverse effects on competition, employment, investment, productivity, innovation, or the ability of U.S.-based enterprises to compete with foreign-based enterprises.

Title VIII of ANILCA requires the Secretaries to administer a subsistence preference on public lands. The scope of this program is limited by definition to certain public lands. Likewise, the adjustments have no potential takings of private property implications as defined by Executive Order 12630.

The Service has determined and certifies pursuant to the Unfunded Mandates Reform Act, 2 U.S.C. 1502 *et seq.*, that the adjustments will not impose a cost of \$100 million or more in any given year on local or State governments or private entities. The implementation is by Federal agencies, and no cost is involved to any State or local entities or Tribal governments.

The Service has determined that the adjustments meet the applicable standards provided in Sections 3(a) and 3(b)(2) of Executive Order 12988, regarding civil justice reform.

In accordance with Executive Order 13132, the adjustments do not have sufficient federalism implications to
