

maintenance, interpretive design and construction, and similar activities, may be available in specific States.

6. *Wildlife and Fisheries Habitat Management.* Activities, such as construction and maintenance, interpretive design and construction, habitat protection and improvement projects, and similar activities, may be available in specific States.

7. *Wild Horse Management.* Activities such as wild horse round ups, removal, and disposition, including operation and maintenance of wild horse facilities may be available in specific States.

The above programs under "Other Activities" are available in many states for competitive contracting. However, if they are of special geographic, historical or cultural significance to a participating Self-Governance tribe, they may be available for annual funding agreements. Tribes may also discuss additional BLM-funded activities with the relevant State office in relation to negotiating specific self-governance agreements.

For questions regarding Indian Self-Governance, contact Jerry Cordova, Bureau of Land Management, 1849 C Street, NW., Washington, DC 20240-0001, telephone: (202) 452-7756, fax: (202) 452-7701. General information on all contracts available in a given year through the BLM can be obtained from the BLM National Business Center, P.O. Box 25047, Bldg 50, Denver Federal Center, Denver, CO 80225-0047.

B. Eligible Programs of the Bureau of Reclamation

Reclamation operates a wide range of water resource management projects for irrigation, hydroelectric power generation, municipal and industrial water supplies, flood control, outdoor recreation, enhancement of fish and wildlife habitats, and research. Most of Reclamation's activities involve construction, operations and maintenance, and management of water resources projects and associated facilities. Components of the following water resource management and construction projects may be eligible for inclusion in self-governance agreements.

1. Klamath Project—CA, OR
2. Trinity River Restoration Program—CA
3. Central Valley Project (Trinity Division)—CA
4. Central Arizona Project—AZ, NM
5. Colorado River Front Work/Levee System—AZ, CA, NV
6. Lower Colorado Indian Water Management Study—AZ, CA, NV
7. Yuma Area Projects—AZ, CA
8. Middle Rio Grande Project—NM

9. Rocky Boy's/North Central Montana Regional Water System—MT
10. Indian Water Rights Settlement Projects—as Congressionally authorized.

For questions regarding self-governance contact Barbara White, Reclamation Self-Governance Coordinator, Native American Affairs Office, Bureau of Reclamation (W-6100), 1849 C Street, NW., Washington, DC 20240-0001, telephone: (202) 513-0631, fax: (202) 513-0311.

C. Eligible Programs of the Minerals Management Service (MMS)

MMS provides stewardship of America's offshore resources and collects revenues generated from mineral leases on Federal and Indian lands. MMS is responsible for the management of the Federal Outer Continental Shelf, which are submerged lands off the coasts that have significant energy and mineral resources. Within the offshore minerals management program, environmental impact assessments and statements, and environmental studies, may be available if a self-governance tribe demonstrates a special geographic, cultural, or historical connection.

MMS also offers mineral-owning tribes other opportunities to become involved in MMS's Minerals Revenue Management functions. These programs address the intent of Indian self-governance but are available regardless of self-governance intentions or status and are a good prerequisite for assuming other technical functions. Generally, minerals revenue management programs are available to tribes because of their status as Indians. Minerals revenue management programs that may be available to self-governance tribes are as follows:

1. *Audit of tribal royalty payments.* Audit activities for tribal leases, except for the issuance of orders, final valuation decisions, and other enforcement activities. (For tribes already participating in MMS delegated audits, this program is offered as an optional alternative.)

2. *Verification of tribal royalty payments.* Financial compliance verification and monitoring activities, production verification, and appeals research and analysis.

3. *Tribal royalty reporting, accounting and data management.* Establishment and management of royalty reporting and accounting systems including document processing, production reporting, reference data (lease, payor, agreement) management, billing and general ledger.

4. Tribal royalty valuation.

Preliminary analysis and recommendations for valuation and allowance determinations and approvals.

5. *Royalty Management of Allottee Leases.* Royalty management of allottee leases, provided that MMS consults with and obtains written approval from affected individual Indian mineral owners to delegate this responsibility to the Tribe.

6. *Online monitoring of royalties and accounts.* Online computer access to reports, payments, and royalty information contained in MMS accounts. MMS will install equipment at tribal locations, train tribal staff, and assist tribe in researching and monitoring all payments, reports, accounts, and historical information regarding their leases.

7. *Royalty Internship Program.* An orientation and training program for auditors and accountants from mineral producing tribes to acquaint tribal staff with royalty laws, procedures, and techniques. This program is recommended for tribes that are considering a self-governance agreement but have not yet acquired mineral revenue expertise via a FOGPMA section 202 contract.

For questions regarding self-governance contact David Izon, Royalty Liaison Office, Minerals Management Service (MS-4241), 1849 C Street, NW., Washington, DC 20240-0001, telephone: (202) 208-3512, fax: (202) 208-3982.

D. Eligible Programs of the National Park Service (NPS)

The National Park Service administers the National Park System made up of national parks, monuments, historic sites, battlefields, seashores, lake shores and recreation areas. NPS maintains the park units, protects the natural and cultural resources, and conducts a range of visitor services such as law enforcement, park maintenance, and interpretation of geology, history, and natural and cultural resources.

Some elements of these programs may be eligible for inclusion in a self-governance annual funding agreement. The listing below was developed considering the geographic proximity to, and/or traditional association of a self-governance tribe with, units of the National Park system, and the types of programs that have components that may be suitable for contracting through a self-governance annual funding agreement. This listing is not all inclusive, but is representative of the types of programs which may be eligible for tribal participation through annual funding agreements.
