Action: Comment Request

1. *State Partnership Initiative (SPI) Cooperative Agreements—0960-0610.* Executive Order 13078 Dated March 13, 1998, *Increasing Employment of Adults With Disabilities.* This action orders that a National Task Force be established to create a coordinated and aggressive national policy to bring adults with disabilities into gainful employment at a rate that is as close as possible to that

of the general adult population. E.O. 13078 specifies that the Task Force "evaluate and, where appropriate, coordinate and collaborate on, research and demonstration priorities of Task Force member agencies related to employment of adults with disabilities." To comply with the EO, SSA released cooperative agreement announcements in 1998 to approximately 650 State agencies nationwide to conduct demonstration projects that assist States in developing service delivery models that increase the rates of gainful employment of people with disabilities. Eighteen State agencies have been selected to participate in the demonstration projects. SSA has employed a monitoring and technical assistance contractor to collect information from the State awardees' databases on behalf of SSA. The Contractor will use the information to evaluate whether and to what extent the service delivery models achieve the overall goals of the demonstration projects and will report project results to SSA. SSA will use the results to conduct a net outcome evaluation to determine the long-term effectiveness of the interventions. Following is a table that outlines the public reporting burden of the 18 State agencies for this project:
