SPX, Lindberg Division, Watertown, WI; Notice of Termination of Investigation

Pursuant to section 221 of the Trade Act of 1974, as amended, an investigation was initiated on November 6, 2003 in response to a worker petition filed on behalf of workers at SPX, Lindberg Division, Watertown, Wisconsin.

The petitioning group of workers is covered by an earlier petition instituted on October 31, 2003 (TA-W-53,399) that is the subject of an ongoing investigation for which a determination has not yet been issued. Further investigation in this case would duplicate efforts and serve no purpose; therefore the investigation under this petition has been terminated.

Signed at Washington, DC this 14th day of November 2003.

Richard Church,

Certifying Officer, Division of Trade Adjustment Assistance.

Fishing Vessel (F/V) Susan Tendering, Kodiak, AK; Notice of Termination of Investigation

Pursuant to section 221 of the Trade Act of 1974, as amended, an investigation was initiated on October 29, 2003 in response to a petition filed by a company official on behalf of workers of F/V Susan Tendering, Kodiak, Alaska.

All workers were separated from the subject firm more than one year before the date of the petition. Section 223(b) of the Act specifies that no certification may apply to any worker whose last separation occurred more than one year before the date of the petition.

Consequently, further investigation in this case would serve no purpose, and the investigation has been terminated.

Signed at Washington, DC this 12th day of November 2003.

Linda G. Poole,

Certifying Officer, Division of Trade Adjustment Assistance.

Occupational Safety and Health Administration

[Docket No. ICR-1218-0197 (2004)]

Construction Fall Protection Plans and Training Requirements (29 CFR 1926.502 and 1926.503); Extension of the Office of Management and Budget's (OMB) Approval of Information Collection (Paperwork) Requirements

AGENCY: Occupational Safety and Health Administration (OSHA), Labor.

ACTION: Request for comment.

SUMMARY: OSHA solicits comments concerning its proposal to extend OMB approval of the information collection requirement contained in the construction standard for fall protection. The Standard allows employers to develop alternative procedures to the use of conventional fall protection systems when the systems are infeasible or create a greater hazard. The alternative procedures (plan) must be written. Also, employers who use safety net systems may certify that the installation meets the standard's criteria in lieu of performing a drop-test on the net. In addition, employers are required to prepare training certification records for their employees. The plan and certification records ensure that employers comply with the requirements to protect workers from falls, which account for the largest number of fatalities among construction workers.
