Health Resources and Services Administration Rapid Expansion of Antiretroviral Therapy Programs for HIV-Infected Persons in Selected Countries in Africa and the Caribbean Under the President's Emergency Plan for AIDS Relief; Notice of Availability of Funds-Amendment

A notice announcing the availability of fiscal year (FY) 2004 funds for a cooperative agreement to rapidly expand ART for low-income HIV-infected persons in selected countries in Africa and the Caribbean under the President's Emergency Plan for AIDS Relief was published in the **Federal Register** on December 1, 2003, Volume 68, Number 230, pages 67186-67192. The notice is amended as follows: On page 67188, Column 1, Section "III.1. Eligible Applicants," please insert the following between the first and second paragraphs:

The intent of this solicitation to support organizations that can rapidly implement ARV programs in three or more countries in which each applicant already has an operational presence. Although applications that consist of partnerships or consortia (of organizations that individually do not meet the eligibility criteria) that were formed specifically for the purpose of responding to this RFA would technically meet the eligibility requirements, the duration of the experience of partnerships or consortia (of organizations that individually do not meet the eligibility criteria) in working together will be considered in evaluating the strength of the applicants' proposal.

In addition, on page 67188, Column 2, Section "IV.1. Address to Request Application Package," please disregard the first sentence and replace it with the following:

To apply for this funding opportunity use either application form CDC 5161-1 or CDC 0.1246(E), but we would prefer form CDC 5161-1.

Dated: December 17, 2003.

Sandra R. Manning,

Director, Procurement and Grants Office, Centers for Disease Control and Prevention.

Citizens Advisory Committee on Public Health Service Activities and Research at Department of Energy (DOE) Sites: Idaho National Engineering and Environmental Laboratory Health Effects Subcommittee (INEELHES)

In accordance with section 10(a)(2) of the Federal Advisory Committee Act (Pub. L. 92-463), the Agency for Toxic Substances and Disease Registry (ATSDR) and the Centers for Disease Control and Prevention (CDC) announce the following meeting.

Name: Citizens Advisory Committee on Public Health Service Activities and Research at Department of Energy (DOE) Sites: Idaho National Engineering and Environmental Laboratory Health Effects Subcommittee (INEELHES).

Times and Dates: 1 p.m.-4:45 p.m., January 21, 2004. 8 a.m.-4:30 p.m., January 22, 2004.

Place: The Hilton Garden Inn, 145 East Riverside Drive, Eagle, Idaho 83616, telephone 208-938-9600, fax 208-938-5200.

Status: Open to the public, limited only by the space available. The meeting room accommodates approximately 50 people.

Background: Under a Memorandum of Understanding (MOU) signed in December 1990 with DOE, and replaced by MOUs signed in 1996 and 2000, the Department of Health and Human Services (HHS) was given the responsibility and resources for conducting analytic epidemiologic investigations of residents of communities in the vicinity of DOE facilities, workers at DOE facilities, and other persons potentially exposed to radiation or to potential hazards from non-nuclear energy production use. HHS delegated program responsibility to CDC.

In addition, a memo was signed in October 1990 and renewed in November 1992, 1996, and in 2000, between ATSDR and DOE. The MOU delineates the responsibilities and procedures for ATSDR's public health activities at DOE sites required under sections 104, 105, 107, and 120 of the Comprehensive Environmental Response, Compensation, and Liability Act (CERCLA or "Superfund"). These activities include health consultations and public health assessments at DOE sites listed on, or proposed for, the Superfund National Priorities List and at sites that are the subject of petitions from the public; and other health-related activities such as epidemiologic studies, health surveillance, exposure and disease registries, health education, substance-specific applied research, emergency response, and preparation of toxicological profiles.

Purpose: This subcommittee is charged with providing advice and recommendations to the Director, CDC, and the Administrator, ATSDR, regarding community concerns pertaining to CDC's and ATSDR's public health activities and research at this DOE
