

One alternative to this action would be not to have volume regulation this season. Board members stated that no volume regulation would be detrimental to the tart cherry industry due to the size of the 2003–2004 crop. Returns to growers would not cover their costs of production for this season which might cause some to go out of business.

As mentioned earlier, the Department's "Guidelines for Fruit, Vegetable, and Specialty Crop Marketing Orders" specify that 110 percent of recent years' sales should be made available to primary markets each season before recommendations for volume regulation are approved. The quantity available under this rule is 110 percent of the quantity shipped in the prior three years.

The free and restricted percentages proposed to be established by this rule release the optimum supply and apply uniformly to all regulated handlers in the industry, regardless of size. There are no known additional costs incurred by small handlers that are not incurred by large handlers. The stabilizing effects of the percentages impact all handlers positively by helping them maintain and expand markets, despite seasonal supply fluctuations. Likewise, price stability positively impacts all producers by allowing them to better anticipate the revenues their tart cherries will generate.

The Department has not identified any relevant Federal rules that duplicate, overlap, or conflict with this regulation.

While the benefits resulting from this rulemaking are difficult to quantify, the stabilizing effects of the volume regulations impact both small and large handlers positively by helping them maintain markets even though tart cherry supplies fluctuate widely from season to season.

In compliance with Office of Management and Budget (OMB) regulations (5 CFR part 1320) which implement the Paperwork Reduction Act of 1995 (Pub. L. 104–13), the information collection and recordkeeping requirements have been previously approved by OMB and assigned OMB Number 0581–0177.

There are some reporting, recordkeeping, and other compliance requirements under the marketing order. The reporting and recordkeeping burdens are necessary for compliance purposes and for developing statistical data for maintenance of the program. The forms require information which is readily available from handler records and which can be provided without data processing equipment or trained statistical staff. As with other, similar

marketing order programs, reports and forms are periodically studied to reduce or eliminate duplicate information collection burdens by industry and public sector agencies. This rule does not change those requirements.

A 15-day comment period is provided to allow interested persons to respond to this proposal. Fifteen days is deemed appropriate because this rule needs to be in place as soon as possible to achieve its intended purpose of making the optimum supply quantity computed by the Board available to handlers marketing 2003–2004 crop year cherries. All written comments timely received will be considered before a final determination is made on this matter.

7 CFR Part 1720

RIN 0572–AB83

Guarantees for Bonds and Notes Issued for Electrification or Telephone Purposes

AGENCY: Rural Utilities Service, USDA.

ACTION: Proposed rule.

SUMMARY: This rule proposes to establish procedures for a guarantee program for cooperatives and other not-for-profit lenders that make loans eligible for assistance under the Rural Electrification Act of 1936 (the RE Act). Criteria for eligibility of lenders and transactions are set forth in the rule together with application procedures. Program participants are required to pay an annual fee for the guarantee. The fee will be credited to the Rural Development Subaccount to provide funds for zero-interest loans and grants pursuant to section 313 of the RE Act. The Farm Security and Rural Investment Act of 2002 (Pub. L. 107–171), amended the RE Act, by adding section 313A which establishes this program.

DATES: Written comments must be received by RUS or carry a postmark or equivalent no later than March 1, 2004.

ADDRESSES: Written comments should be addressed to Blaine D. Stockton, Assistant Administrator, Electric Program, U.S. Department of Agriculture, Rural Utilities Service, Room 5156 South Building, Stop 1560, 1400 Independence Avenue, SW., Washington, DC 20250–1560.
