Any comments related to this ICR should be submitted to EPA and OMB within 30 days of this notice. EPA's policy is that public comments, whether submitted electronically or in paper, will be made available for public viewing in EDOCKET as EPA receives them and without change, unless the comment contains copyrighted material, Confidential Business Information (CBI),

or other information whose public disclosure is restricted by statute. When EPA identifies a comment containing copyrighted material, EPA will provide a reference to that material in the version of the comment that is placed in EDOCKET. The entire printed comment, including the copyrighted material, will be available in the public docket.

Although identified as an item in the official docket, information claimed as CBI, or whose disclosure is otherwise restricted by statute, is not included in the official public docket, and will not be available for public viewing in EDOCKET. For further information about the electronic docket, see EPA's **Federal Register** notice describing the electronic docket at 67 FR 38102 (May 31, 2002), or go to <http://www.epa.gov/edocket>.

Title: Emission Guidelines for Commercial and Industrial Solid Waste Incineration Units (40 CFR part 60, subpart DDDD).

Abstract: Emission Guidelines for Commercial and Industrial Solid Waste Incineration (CISWI) Units (40 CFR part 60, subpart DDDD), was promulgated on December 1, 2000. The emission guidelines require a one-time waste management plan, initial performance tests for ten pollutants, annual performance testing for particulate matter (PM), hydrogen chloride (HCl), and opacity, continuous operating parameter monitoring, annual operator training, and annual reporting. A deviation report is required if any of the emission limitations or operating limits are exceeded. The frequency of these activities was chosen by EPA as the period that will provide an adequate margin of assurance that affected facilities will not operate for extended periods in violation of the standards.

The regulation addresses information collection activities imposed by the Commercial and Industrial Solid Waste Incineration (CISWI) Unit Emission Guidelines, subpart DDDD. The guidelines do not apply directly to CISWI unit owners and operators. The guidelines can be thought of as "model regulations" that States use in developing State plans to implement the emission guidelines. If a State does not develop, adopt, and submit an approved State plan, the Environmental Protection Agency (EPA) must develop a Federal plan to implement the emission guidelines. In the event that a State's plan is not approved, then a Federal plan must be developed.

The information will be used by the designated Administrator's enforcement personnel to ensure that the requirements of the State (or Federal) plan are being implemented and are
