

replacing the values on page 63482 with the following: relative weight, 1.4817; payment rate, \$80.84; and minimum unadjusted copayment amount, \$16.17. These values are listed in bold type in Table 1 below.

The status indicator for HCPCS code 96105 was changed to "A" and, therefore, should not contribute to the calculation of the APC median. The values for APC 0373 on page 63482 are incorrect because the code (96105) was used under its previous status indicator "X" and was therefore included in the media calculation. We replace the values in Addendum A on page 63482 with the following correct values: relative weight, 2.3288; payment rate, \$127.06; and minimum unadjusted copayment amount, \$25.41. These values are listed in bold type in Table 1 below.

The relative weight, copayment and payment rates are incorrect for APC 0384 as published on page 63482. Two HCPCS codes (43268 and 43269) were moved from APC 0151 into APC 0384, and those changes were not reflected in the published Addendum A. We replace the values for APC 0384 with the following: relative weight, 36.54; payment rate, \$1,993.66; national unadjusted copayment, \$433.01; and minimum unadjusted copayment, \$398.73. The values for APC 0151 do not change. These values are listed in bold type in Table 1 below.

APC 0413 was listed in Addendum A on page 63483 in error. No codes are assigned to this APC, so it no longer exists. We remove APC 0413.

We correct Addenda A and B by adding the relative weight for APC 0734 on page 63484 in Addendum A and for CPT/HCPCS codes C1774 and Q0137 on pages 63610 and 63650, respectively, in Addendum B. The relative weight is 0.0594 for both of these codes.

The values for APC 1604 are incorrect as published on page 63486. Additional data were available but inadvertently were not used in the median calculation for this APC. The new values reflect use of the additional data. We correct the values for APC 1604 as follows: relative weight, 20.2752; payment rate, \$1,106.24; and minimum unadjusted copayment, \$221.25. These values are listed in bold type in Table 1 below.

On page 63487, the payment rate for APC 9012 is corrected to reflect its new status as a single-indication orphan drug. We correct the payment rate to \$34.32 and the minimum unadjusted copayment to \$6.86.

On page 63488, the descriptor for APC 9116 is incorrect. We correct it to read "Inj. Ertapenem sodium, per 500 mg."

For the following CPT/HCPCS codes on the pages identified, beginning on page 63488 and concluding on page 63644, we listed outdated descriptors. We correct the descriptor on page 63488 for code 0002T; page 63496 for code 15852; page 63548 for code 55870; page 63619 for code E0141; page 63622 for codes E0973 and E0974; page 63623 for code E0978; page 63624 for code E1226; page 63627 for codes G0210, G0213, G0214, G0215, G0230, G0246, G0247, G0248; page 63630 for code J1563; page 63631 for codes J2260 and J2324; page 63633 for code J8700; page 63636 for code K0560; page 63637 for codes K0600, K0607, K0614, K0615, K0616, and K0617; page 63643 for codes L4350, L4360, and L4386; and on page 63644 for codes L5646 and L5648. See Table 2—Corrections to Addendum B of the November 7, 2003, Final Rule for corrections to Addendum B for the codes identified above.

On page 63627, CPT/HCPCS G0244 is listed with an incorrect relative weight, payment rate, and copayment amount. We correct the current relative weight, payment rate, and copayment, by inserting 6.6961, \$365.35, and \$73.07, respectively. See Table 2 below for the corrected values.

On page 63634, CPT/HCPCS J9017 is listed with an incorrect relative weight, payment rate, and copayment. J9017 is an orphan drug and is reimbursed at 88 percent of AWP. We correct the addendum by replacing current values with a payment rate of \$34.32 and minimum unadjusted copayment of \$6.86.

On page 63590, we incorrectly assigned status indicator A to CPT/HCPCS 90918 through 90925. These codes are replaced by G0320 through G0327. Therefore, codes 90918 through 90925 are assigned status indicator E. On page 63590, for CPT/HCPCS 90918, 90919, 90920, 90921, 90922, 90924, and 90925, we remove the status indicator A and insert status indicator E. See Table 2—Corrections to Addendum B of the November 7, 2003, Final Rule for corrections to Addendum B for the codes identified above.

The following CPT/HCPCS codes were omitted from Addendum B of the November 7, 2003, final rule: 99375, status indicator E, home health care supervision, effective 1/1/03; 99378, status indicator E, hospice care supervision, effective 1/1/03; G0308, status indicator A, condition NI, ESRD related svc 4+mo<2yrs; G0309, status indicator A, condition NI, ESRD related svc 2–3mo<2rs; G0310, status indicator A, condition NI, ESRD related svc 1vst<2yr; G0311, status indicator A, condition NI, ESRD related svcs 4+mo 2–

11 yr; G0312, status indicator A, condition NI, ESRD related svcs 2–3 mo 2–11 yr; G0313, status indicator A, condition NI, ESRD related svcs 1 mon 2–11 yr; G0314, status indicator A, condition NI, ESRD related svcs 4+mo 12–19; G0315, status indicator A, condition NI, ESRD related svcs 2–3 mo 12–19; G0316, status indicator A, condition NI, ESRD related svcs 1 vst 12–19y; G0317, status indicator A, condition NI, ESRD related svcs 4+mo 20+yrs; G0318, status indicator A, condition NI, ESRD related svcs 2–3 mo 20+y; G0319, status indicator A, condition NI, ESRD related svcs 1 visit 20+y; G0320, status indicator A, condition NI, ESRD related svcs home under 2; G0321, status indicator A, condition NI, ESRD related svcs home mo<2yrs; G0322, status indicator A, condition NI, ESRD related svcs home mo12–19; G0328, status indicator A, condition NI, fecal blood scrn immunoassay; all effective 1/1/04; and P9603, status indicator A, One-way allow prorated miles, effective 1/1/92. See Table 2—Corrections to Addendum B of the November 7, 2003, Final Rule for corrections to Addendum B for the codes identified above.

On page 63608, we incorrectly assigned status indicator B and condition NI to CPT/HCPCS A9527, I-131 tositumomab therapeutic. New code A9534, with the same descriptor, replaces A9527, effective 1/1/04. A9527 is removed effective 1/1/04, with no grace period. On page 63608, for CPT/HCPCS A9527, we remove the status indicator of B and insert a status indicator of D. We remove the condition NI and insert a condition of DNG. See Table 2—Corrections to Addendum B of the November 7, 2003, Final Rule for corrections to Addendum B for the code identified above.

For the CPT/HCPCS codes on the pages identified, beginning on page 63490 and concluding on page 63653, we incorrectly listed status indicator E instead of status indicator B. We correct the status indicator on page 63490 for codes 0054T, 0055T, 0056T, 0057T, 0060T, and 0061T; page 63598 for codes 99002 and 99140; page 63604 for codes A4671, A4672, and A4673; page 63605 for codes A4674 and A4728; page 63624 for code E1634; page 63633 for J7330; page 63641 for L3350; and page 63653 for code V2761. See Table 2—Corrections to Addendum B of the November 7, 2003, Final Rule for corrections to Addendum B for the codes identified above.

For the following CPT/HCPCS codes on the pages identified, beginning on page 63490 and concluding on page 63619, we incorrectly listed condition
