

conducted via oral gavage in rabbits with dosages of 0, 100, 300, and 1,000 mg/kg bwt/day. The NOAEL for maternal toxicity was 100 mg/kg bwt/day and was 1,000 mg/kg/day for developmental toxicity. As noted above this NOAEL is based on fecal alterations and an abortion in a single dam at the next highest dose of 300 mg/kg/day. The dam which displayed the fecal alterations and abortion also displayed decreased body weight, body weight gain and food consumption - compared to the group mean - during gestation. These decreases occurred even prior to compound administration. These decreases in body weight, body weight gain, and food consumption, prior to compound administration, all indicate an animal in poor health and this poor state of health, rather than compound exposure, was likely the reason for the fecal alterations and abortion. No teratogenic effects were observed at any dose level.

4. *Reproductive toxicity.* A 2-generation reproduction study in rats was conducted with dosages of 0, 12, 118, and 1,183 mg/kg bwt/day. No impairment of reproductive function was noted at any dose. The parental and developmental NOAEL are both 12 mg/kg/day. Mild effects in both the parents and pups were noted at 118 mg/kg/day and consisted of an increased incidence of hepatic centrilobular hypertrophy in parents and, in the pups, slightly decreased body weight and body weight gain (7%) in F2 generation only, and only in males. At 1,183 mg/kg/day paternal effects included decreased body weights and food consumption, increased liver weights and increased incidence of hepatic centrilobular hypertrophy and degeneration. Pup effects at this dose were an increase in pup mortality in the F2 only and a decreased body weight in F1 and F2.

5. *Reference dose.* In all reproductive studies, the NOAELs for developmental effects were either equal to or higher than those for the parents. Therefore, BAS 510 F shows no selective toxicity for the young. In addition, there were no direct neurotoxicity effects noted in either the acute or subchronic neurotoxicity studies.

Based on these results, no additional safety factors to protect children are warranted. Since the reproductive studies NOAELs are higher than the RfD calculated from the chronic rat study, BASF believes the RfD of 0.05 mg/kg/day is also appropriate to measure safety for infants and children. Therefore, the chronic population adjusted dose is also 0.05 mg/kg bwt/day.

F. International Tolerances

A maximum residue level has not been established for BAS 510 F in any crop by the Codex Alimentarius Commission.

BILLING CODE 6560-50-S

ENVIRONMENTAL PROTECTION AGENCY

[OPP-2003-0007; FRL-7289-1]

Pyrimethanil; Notice of Filing a Pesticide Petition to Establish a Tolerance for a Certain Pesticide Chemical in or on Food

AGENCY: Environmental Protection Agency (EPA).

ACTION: Notice.

SUMMARY: This notice announces the initial filing of a pesticide petition proposing the establishment of regulations for residues of pyrimethanil in or on various food commodities.

DATES: Comments, identified by docket ID number OPP-2002-0007, must be received on or before March 17, 2003.

ADDRESSES: Comments may be submitted electronically, by mail, or through hand delivery/courier. Follow the detailed instructions as provided in Unit I. of the **SUPPLEMENTARY INFORMATION**.

FOR FURTHER INFORMATION CONTACT: Mary Waller, Registration Division (7505C), Office of Pesticide Programs, Environmental Protection Agency, 1200 Pennsylvania Ave., NW., Washington, DC 20460-0001; telephone number: (703) 308-9354; e-mail address: waller.mary@epa.gov.

SUPPLEMENTARY INFORMATION:

I. General Information

A. Does this Action Apply to Me?

You may be affected by this action if you are an agricultural producer, food manufacturer, or pesticide manufacturer. Potentially affected categories and entities may include, but are not limited to:

- Crop production (NAICS 111)
- Animal production (NAICS 112)
- Food manufacturing (NAICS 311)
- Pesticide manufacturing (NAICS 32532)

This listing is not intended to be exhaustive, but rather provides a guide for readers regarding entities likely to be affected by this action. Other types of entities not listed in the table could also be affected. The North American Industrial Classification System

(NAICS) codes have been provided to assist you and others in determining whether or not this action might apply to certain entities. If you have questions regarding the applicability of this action to a particular entity, consult the person listed under **FOR FURTHER INFORMATION CONTACT**.

B. How Can I Get Copies of this Document and Other Related Information?

1. *Docket.* EPA has established an official public docket for this action under docket identification (ID) number OPP-2003-0007. The official public docket consists of the documents specifically referenced in this action, any public comments received, and other information related to this action. Although a part of the official docket, the public docket does not include Confidential Business Information (CBI) or other information whose disclosure is restricted by statute. The official public docket is the collection of materials that is available for public viewing at the Public Information and Records Integrity Branch (PIRIB), Rm. 119, Crystal Mall #2, 1921 Jefferson Davis Hwy., Arlington, VA. This docket facility is open from 8:30 a.m. to 4 p.m., Monday through Friday, excluding legal holidays. The docket telephone number is (703) 305-5805.

2. *Electronic access.* You may access this **Federal Register** document electronically through the EPA Internet under the "**Federal Register**" listings at <http://www.epa.gov/fedrgstr/>.

An electronic version of the public docket is available through EPA's electronic public docket and comment system, EPA Dockets. You may use EPA Dockets at <http://www.epa.gov/edocket/> to submit or view public comments, access the index listing of the contents of the official public docket, and to access those documents in the public docket that are available electronically. Although not all docket materials may be available electronically, you may still access any of the publicly available docket materials through the docket facility identified in Unit I.B.1. Once in the system, select "search," then key in the appropriate docket ID number.

Certain types of information will not be placed in the EPA Dockets. Information claimed as CBI and other information whose disclosure is restricted by statute, which is not included in the official public docket, will not be available for public viewing in EPA's electronic public docket. EPA's policy is that copyrighted material will not be placed in EPA's electronic public docket but will be available only in printed, paper form in the official public
