

On November 4, 2003, the Department solicited comments on the request for a period of 20 days. (See 68 FR 62432.) The Department received comments from seven companies/trade associations. One of the respondents, Southwick Clothing LLC, supported the request for modification, and six of the respondents, Burlington Industries, Cley & Tinker, the National Textile Association, Victor Forstmann, Inc., Warren of Stafford, and the Association of Georgia's Textile, Carpet, and Consumer Products Manufacturers, opposed the request for modification.

After reviewing the request, the comments received, and other information obtained, including a report prepared by the U.S. International Trade Commission, and after considering the specific market conditions set forth in the TDA 2000, the Department determined that the 2004 limitations on the quantity of imports of worsted wool fabrics that may be imported subject to the tariff rate quotas established by the TDA 2000 as amended by the Trade Act of 2002 should not be modified.
