National Emission Standards for Hazardous Air Pollutants for Chemical Recovery Combustion Sources at Kraft, Soda, Sulfite, and Stand-Alone Semichemical Pulp Mills

AGENCY: Environmental Protection Agency (EPA).

ACTION: Direct final rule; amendments.

SUMMARY: The EPA is taking direct final action on amendments to the national emission standards for hazardous air pollutants (NESHAP) for chemical recovery combustion sources at kraft, soda, sulfite, and stand-alone semichemical pulp mills, which were issued on January 12, 2001 under section 112 of the Clean Air Act (CAA). The amendments clarify and consolidate the monitoring and testing requirements and add a site-specific alternative standard for one pulp mill. We are issuing these amendments as a direct final rule, without prior proposal, because we view the revisions as noncontroversial and anticipate no significant adverse comments. However, in the Proposed Rules section of this **Federal Register**, we are publishing a separate document that will serve as the

proposal to amend the national emission standards for chemical recovery combustion sources at kraft, soda, sulfite, and stand-alone semichemical pulp mills if significant adverse comments are filed.

DATES: The direct final rule is effective on May 19, 2003, without further notice, unless EPA receives significant adverse comments by March 20, 2003. If significant adverse comments are received, EPA will publish a timely withdrawal in the **Federal Register** to notify the public that the rule will not take effect. The incorporation by reference of certain publications in the rule is approved by the Director of the Office of the Federal Register as of May 19, 2003.

ADDRESSES: Comments may be submitted by mail (in duplicate, if possible) to EPA Docket Center (Air Docket), U.S. EPA West (MD–6102T), Room B–108, 1200 Pennsylvania Avenue, NW, Washington, DC 20460, Attention Docket ID No. OAR–2002–0045.
