Also, pursuant to Title V of the North American Free Trade Agreement Implementation Act (Pub. L. 103-182) concerning transitional adjustment assistance hereinafter called (NAFTA-TAA) and in accordance with Section 250(a), Subchapter D, Chapter 2, Title II, of the Trade Act as amended, the Department of Labor presents summaries of determinations regarding eligibility to apply for NAFTA-TAA issued during the month of January, 2003.

In order for an affirmative determination to be made and a

certification of eligibility to apply for NAFTA-TAA the following group eligibility requirements of Section 250 of the Trade Act must be met:

(1) That a significant number or proportion of the workers in the workers' firm, or an appropriate subdivision thereof, (including workers in any agricultural firm or appropriate subdivision thereof) have become totally or partially separated from employment and either—

(2) That sales or production, or both, of such firm or subdivision have decreased absolutely,

(3) That imports from Mexico or Canada of articles like or directly competitive with articles produced by such firm or subdivision have increased, and that the increases imports contributed importantly to such workers' separations or threat of separation and to the decline in sales or production of such firm or subdivision; or

(4) That there has been a shift in production by such workers' firm or subdivision to Mexico or Canada of articles like or directly competitive with articles which are produced by the firm or subdivision.

Negative Determinations NAFTA-TAA

In each of the following cases the investigation revealed that criteria (3) and (4) were not met. Imports from Canada or Mexico did not contribute importantly to workers' separations. There was no shift in production from the subject firm to Canada or Mexico during the relevant period.

NAFTA-TAA-06312; *Delphi Energy and Chassis, Dayton, OH*.
 NAFTA-TAA-07596; *La Grange Foundry, Inc., La Grange, MO*

Affirmative Determinations NAFTA-TAA

NAFTA-TAA-07614; *Interlake Material Handling, Inc., Pontiac Manufacturing Plant, Pontiac, IL*: February 10, 2001.

I hereby certify that the aforementioned determinations were issued during the months of January, 2003. Copies of these determinations are available for inspection in Room C-5311, U.S. Department of Labor, 200 Constitution Avenue, NW., Washington, DC 20210 during normal business hours or will be mailed to persons who write to the above address.

Dated: January 31, 2003.

Edward A. Tomchick,
 Director, Division of Trade Adjustment Assistance.

Affiliated Building Services, Biscoe, North Carolina; Notice of Negative Determination Regarding Application for Reconsideration

By application dated October 2, 2002, a company official requested administrative reconsideration of the Department's negative determination regarding eligibility for workers and former workers of the subject firm to apply for Trade Adjustment Assistance (TAA). The denial notice applicable to workers of Affiliated Building Services, Biscoe, North Carolina was signed on September 9, 2002, and published in the **Federal Register** on September 27, 2002 (67 FR 61160).

Pursuant to 29 CFR 90.18(c) reconsideration may be granted under the following circumstances:

(1) If it appears on the basis of facts not previously considered that the determination complained of was erroneous;

(2) If it appears that the determination complained of was based on a mistake in the determination of facts not previously considered; or

(3) If in the opinion of the Certifying Officer, a mis-interpretation of facts or of the law justified reconsideration of the decision.

The TAA petition was filed on behalf of workers at Affiliated Building Services, Biscoe, North Carolina engaged in activities related to the maintenance of building systems (heating, cooling, air compressors). The petition was denied because the petitioning workers did not produce an article within the meaning of Section 222(3) of the Act.

To support its request for reconsideration, the petitioners provided a more detailed description of the functions performed at the subject facility.

A review of the job duties and their relationship to production of products revealed that the expanded description did not vary from the functions described in the initial investigation: maintenance of building systems, including heating, cooling and air compressors.

Only in very limited instances are service workers certified for TAA, namely the worker separations must be caused by a reduced demand for their services from a parent or controlling firm or subdivision whose workers
