

You may mail or hand-deliver written comments to the Field Supervisor, Arizona Ecological Services Office (see **ADDRESSES** section). Hand deliveries must be made during normal business hours.

You may send comments by e-mail to [cfpo\\_habitat@fws.gov](mailto:cfpo_habitat@fws.gov). If you submit comments by e-mail, please submit them as an ASCII file and avoid the use of special characters and any form of encryption. Please also include a return address in your e-mail message.

You may send written comments by facsimile to 602/242-2513.

Prior to making a final determination on this proposed rule, we will take into consideration all relevant comments and additional information received during the comment period. You may inspect comments and materials received, as well as supporting documentation used in preparation of the proposal to designate critical habitat, by appointment during normal business hours at our office listed in the **ADDRESSES** section.

#### Authority

The authority for this action is the Endangered Species Act of 1973 (16 U.S.C. 1531 *et seq.*).

Dated: February 20, 2003.

**Julie A. MacDonald,**

*Acting Assistant Secretary for Fish and Wildlife and Parks.*

## DEPARTMENT OF COMMERCE

### National Oceanic and Atmospheric Administration

#### 50 CFR Part 648

[Docket No. 030210027-3027-01; I.D. 012103E]

**RIN 0648-AQ35**

#### Fisheries of the Northeastern United States; Northeast Multispecies Fishery; Framework Adjustment 37 to the Northeast Multispecies Fishery Management Plan

**AGENCY:** National Marine Fisheries Service (NMFS), National Oceanic and Atmospheric Administration (NOAA), Commerce.

**ACTION:** Proposed rule; request for comments.

**SUMMARY:** NMFS issues this proposed rule to implement measures contained in Framework Adjustment 37 (Framework 37) to the Northeast Multispecies Fishery Management Plan

(FMP) to eliminate the Year-4 default measure for whiting in both stock areas; reinstate the Cultivator Shoal whiting fishery (CSWF) season through October 31; eliminate the 10-percent restriction on red hake incidental catch in the CSWF; adjust the incidental catch allowances in Small Mesh Areas 1 and 2 so that they are consistent with those in the Cape Cod Bay raised footrope trawl fishery; clarify the transfer-at-sea provisions for small-mesh multispecies for use as bait; and slightly modify the Cape Cod Bay raised footrope trawl fishery area.

**DATES:** Comments on this proposed rule must be received on or before March 27, 2003.

**ADDRESSES:** Copies of the Framework 37 document, its Regulatory Impact Review (RIR), the Initial Regulatory Flexibility Analysis (IRFA) and supplement to the IRFA prepared by NMFS, the Environmental Assessment, and other supporting documents for the framework adjustment are available from Paul J. Howard, Executive Director, New England Fishery Management Council, 50 Water Street, Mill 2, Newburyport, MA 01950. These documents are also available online at <http://www.nefmc.org>.

This action is also based upon analyses conducted in support of Amendment 12 to the FMP. Copies of the Amendment 12 document, its RIR, IRFA and the July 1, 1999, supplement to the IRFA prepared by NMFS, the Final Supplemental Environmental Impact Statement (FSEIS), and other supporting documents for Amendment 12 are available from Paul J. Howard, Executive Director, New England Fishery Management Council, 50 Water Street, Mill 2, Newburyport, MA 01950. The Final Regulatory Flexibility Analysis for Amendment 12 consisted of the IRFA, public comments and responses contained in the final rule implementing Amendment 12 (65 FR 16766, March 29, 2000), and the summary of impacts and alternatives in that final rule.

Written comments on the proposed rule should be sent to Patricia A. Kurkul, Regional Administrator, NMFS, Northeast Regional Office, One Blackburn Drive, Gloucester, MA 01930. Mark the outside of the envelope "Comments on Framework 37." Comments may also be sent via facsimile (fax) to (978) 281-9135. Comments will not be accepted if submitted via e-mail or the Internet.

**FOR FURTHER INFORMATION CONTACT:** E. Martin Jaffe, Fishery Policy Analyst, 978-281-9272.

#### SUPPLEMENTARY INFORMATION:

Amendment 12 was developed to address the overfished condition of red hake and the southern stock of whiting, to reduce fishing mortality on northern whiting, which was approaching an overfished condition, and to establish management measures for offshore hake. The final rule implementing Amendment 12, which was partially approved by NMFS on behalf of the Secretary of Commerce on September 1, 1999, was published on March 29, 2000 (61 FR 16766), and became effective on April 28, 2000. The New England Fishery Management Council (Council) intended for the measures in Amendment 12 to achieve the target fishing mortality rates (F) for whiting within 4 years of implementation and to rebuild whiting and red hake stocks within 10 years.

Under Amendment 12, fishing with small mesh is regulated in the North Atlantic region through the establishment of three large "Regulated Mesh Areas." In the Gulf of Maine/ Georges Bank (GOM/GB) Regulated Mesh Area, vessels may fish for whiting with nets that have less than the minimum mesh size of 6-inch (15.24-cm) diamond mesh or 6.5-inch (16.51-cm) square mesh when participating in certain exempted fisheries. The GOM/GB exempted fisheries for whiting include: The Small Mesh Northern Shrimp Fishery, the CSWF, the Small Mesh Area 1/Small Mesh Area 2 Exemptions, and the Raised Footrope Trawl Whiting Fishery. The CSWF has a 3-inch (7.62-cm) minimum mesh size, and the Raised Footrope Trawl Whiting Fishery has a 2.5-inch (6.35-cm) minimum mesh size. In the Southern New England Regulated Mesh Area, vessels are exempt from the minimum mesh size requirement throughout the area when fishing for exempted species, which include whiting and offshore hake. Finally, in the Mid-Atlantic Regulated Mesh Area, vessels may fish for whiting and offshore hake with nets of mesh less than the minimum size when not fishing under a multispecies day-at-sea (DAS), provided that the vessel does not possess or land regulated multispecies.

Amendment 12 includes three possession limits, depending upon the minimum mesh size used. Vessels may possess and land up to a combined total of 3,500 lb (1,588 kg) of whiting and offshore hake when fishing with mesh less than 2.5 inches (6.35 cm). Vessels may possess and land up to a combined total of 7,500 lb (3,402 kg) of whiting and offshore hake when fishing with mesh equal to or greater than 2.5 inches (6.35 cm) and less than 3.0 inches (7.62
