

person who qualifies as a small manufacturer is subject to this subpart with respect to any chemical substance that is the subject of a rule proposed or promulgated under section 4, 5(b)(4), or 6 of the Act, or is the subject of an order in effect under section 5(e) of the Act, or is the subject of relief that has been granted under a civil action under section 5 or 7 of the Act.

§ 710.50 Activities for which reporting is not required.

A person described in § 710.48 is not subject to the requirements of this subpart with respect to any chemical substance described in § 710.45 that the person solely manufactured or imported under the following circumstances:

(a) The person manufactured or imported the chemical substance described in § 710.45 solely in small quantities for research and development.

(b) The person imported the chemical substance described in § 710.45 as part of an article.

(c) The person manufactured the chemical substance described in § 710.45 in a manner described in § 720.30(g) or (h) of this chapter.

§ 710.52 Reporting information to EPA.

Any person who must report under this subpart, as described in § 710.48, must submit the information described in this section for each chemical substance described in § 710.45 that the person manufactured (including imported) for commercial purposes in an amount of 25,000 lbs. (11,340 kg) or more at any one site during calendar year 2005 or during the calendar year at 4-year intervals thereafter. (See § 710.48(b) for the "site" for importers). A separate form must be submitted for each chemical substance at each site for which the submitter is required to report. A submitter of information under this subpart must report information as described in paragraphs (c)(1), (c)(2), and (c)(3) of this section to the extent that such information is *known to or reasonably ascertainable* by that person whereas a submitter must report information as described in paragraph (c)(4) of this section only to the extent that such information is *readily obtainable* by that person. A submitter under this subpart must report information that applies to the calendar year for which the person is required to report (i.e., calendar year 2005 and the calendar year at 4-year intervals thereafter).

(a) *Reporting in writing.* Any person who chooses to report information to EPA in writing must do so by completing the reporting form available

from EPA at the address set forth in § 710.59. The form must include all information described in paragraph (c) of this section. Persons reporting in writing must submit a separate form for each site for which the person is required to report.

(b) *Reporting by magnetic media.* Any person who chooses to report information to EPA by means of magnetic media must submit the information described in paragraph (c) of this section. Magnetic media submitted in response to this subpart must meet EPA specifications, as described in the instruction booklet available from EPA at the address set forth in § 710.59.

(c) *Information to be reported.* Manufacturers (including importers) of a reportable chemical substance in an amount of 25,000 lbs. (11,340 kg) or more at a site during a reporting year must report the information described in paragraphs (c)(1), (c)(2), and (c)(3) of this section. Manufacturers (including importers) of a reportable chemical substance in an amount of 300,000 lbs. (136,077 kg) or more at a site during a reporting year must report the information described in paragraph (c)(4) of this section in addition to the information described in paragraphs (c)(1), (c)(2), and (c)(3) of this section. As described in § 710.46(b)(3), manufacturers of certain inorganic chemical substances are not required to report the information described in paragraph (c)(4) of this section during the 2006 submission period, but are required to report this information during subsequent submission periods. As described in § 710.46(b)(1) and (b)(2), manufacturers of certain chemicals are not required to report the information described in paragraph (c)(4) of this section.

(1) *A certification statement signed and dated by an authorized official of the submitter company.* Persons reporting by means of magnetic media must submit this information on the reporting form available as described in § 710.59.

(2) *Company and plant site information.* The following company and plant site information must be reported for each site at which at least 25,000 lbs. (11,340 kg) of a reportable chemical substance is manufactured (including imported) during calendar year 2005 or during the calendar year at 4-year intervals thereafter (see § 710.48(b) for the "site" for importers):

(i) The name of a person who will serve as technical contact for the submitter company, and who will be able to answer questions about the information submitted by the company

to EPA, the parent company name and Dun and Bradstreet Number, the contact person's full mailing address, the contact person's telephone number and the contact person's e-mail address.

(ii) The name and full street address of each site. A submitter under this subpart must include the appropriate Dun and Bradstreet Number for each plant site reported, and the county or parish (or other jurisdictional indicator) in which the plant site is located.

(3) *Specific information for chemicals manufactured in amounts of 25,000 lbs. or more.* The following chemical-specific information must be reported for each reportable chemical substance manufactured at (including imported into) each site in amounts of 25,000 lbs. (11,340 kg) or more during calendar year 2005 or during the calendar year at 4-year intervals thereafter:

(i) The specific chemical name and CAS Number of each reportable chemical substance at each site. A submitter under this subpart may use an EPA-designated Accession Number for confidential substances, or a premanufacture notice (PMN) case number (see § 720.65 of this chapter) in lieu of a CAS Number when a CAS Number is not known to or reasonably ascertainable by the submitter. In addition to reporting the number itself, submitters must specify the type of number they are reporting by selecting from among the following codes:

CODES TO SPECIFY TYPE OF CHEMICAL IDENTIFYING NUMBER

Codes	Number Type
A	Accession Number
C	CAS Registry Number
P	PMN Number

(ii) A statement indicating, for each reportable chemical substance at each site, whether the substance is manufactured in the United States, imported into the United States, or both manufactured in the United States and imported into the United States.

(iii) A designation indicating, for each reportable chemical substance at each site, whether the substance is site-limited.

(iv) The total volume (in pounds) of each reportable chemical substance manufactured (including imported) at each site. This amount must be reported to two significant figures of accuracy provided that the reported figures are within plus or minus 10% of the actual volume.

(v) Any person claiming that the volume reported under paragraph (c)(3)(iv) of this section is confidential
