Non-Market Economy

The Department has treated Belarus as a nonmarket economy (NME) country in all previous antidumping investigations. See *Notice of Final Determination of Sales at Less Than Fair Value: Steel Concrete Reinforcing Bars From Belarus*, 66 FR 33528 (June 22, 2001). In accordance with section 771(18)(C)(i) of the Act, any determination that a foreign country is an NME country shall remain in effect until revoked. Therefore, pursuant to section 771(18)(C)(i) of the Act, the Department has continued to treat Belarus as an NME country for the purposes of this investigation.

Separate Rates

In our Preliminary Determination, we found that the only responding company, Grodno, met the criteria for the application of separate, company-specific antidumping duty rates. We have not received any other information since the preliminary determination which would warrant reconsideration of our separates rates determination with respect to this company. For a complete discussion of the Department's determination that the respondent is entitled to a separate rate, see the *Preliminary Determination*. We have also addressed an allegation made by the petitioner in the *Decision Memorandum* at Comment 4.

The Belarus-Wide Rate

In all NME cases, the Department makes a rebuttable presumption that all exporters or producers located in the NME country comprise a single exporter under common government control, "the NME entity." The Department assigns a single NME rate to the NME entity unless an exporter can demonstrate eligibility for a separate rate.

In the *Preliminary Determination*, Grodno qualified for a separate rate. Furthermore, information on the record of this investigation indicates that Grodno accounted for all imports of subject merchandise during the POI. Since Grodno is the only known Belarusian exporter of UANS to the United States during the POI, we have calculated a Belarus-wide rate for this investigation based on the weighted-average margin determined for Grodno.

Surrogate Country

When the Department is investigating imports from an NME country, section 773(c)(1) of the Act directs the Department to base normal value (NV) on the NME producer's FOP, valued in a comparable market economy that is a significant producer of comparable merchandise. For purposes of the final determination, we continue to find that South Africa remains the appropriate surrogate country for Belarus. We received comments from the respondent pertaining to our selection of South Africa, which are discussed in the accompanying *Decision Memorandum* at Comment 1.

Verification

As provided in section 782(i) of the Act, we verified the information submitted by the respondent for use in our final determination. We used standard verification procedures including examination of relevant accounting and production records, and original source documents provided by the respondents. For changes from the Preliminary Determination as a result of verification, see the *Changes Since the Preliminary Determination* section below.

Changes Since the Preliminary Determination

Based on our findings at verification and on our analysis of the comments

received, we have made adjustments to the calculation methodologies. We are valuing the river water FOP and the steam FOPs separately from surrogate overhead value, and we are applying truck freight rather than rail freight to three FOPs. These adjustments are discussed in detail in the (1) *Decision Memorandum*, (2) *Memorandum from the Team to the File*, "Additional Surrogate Country Values Used for the Final Determination of the Antidumping Duty Investigation of Urea Ammonium Nitrate Solutions from Belarus," dated February 18, 2003, and (3) *Memorandum from the Team to the File*, "Calculation Memorandum for the Final Determination," dated February 18, 2003.

Continuation of Suspension of Liquidation

In accordance with section 735(c)(1)(B)(ii) of the Act, we are directing the U.S. Customs Service (Customs) to continue suspension of liquidation of entries of subject merchandise from Belarus that are entered, or withdrawn from warehouse, for consumption on or after October 3, 2002 (the date of publication of the *Preliminary Determination* in the **Federal Register**). We will instruct the Customs Service to require a cash deposit or the posting of a bond equal to the weighted-average amount by which the NV exceeds the U.S. price, as indicated in the chart below. These suspension-of-liquidation instructions will remain in effect until further notice.

Final Determination of Investigation

We determine that the following weighted-average percentage margins exist for the period October 1, 2001, through March 31, 2002:

Manufacturer/exporter	Weighted-Average Margin (percent)
Grodno Production Republican Enterprise	226.82
Belarus-Wide Rate	226.82

The Belarus-wide rate applies to all entries of the subject merchandise except for entries from Grodno.

U.S. International Trade Commission Notification

In accordance with section 735(d) of the Act, we have notified the U.S. International Trade Commission (ITC) of our determination. As our final determination is affirmative, the ITC

will determine, within 45 days, whether these imports are materially injuring, or threaten material injury to, the U.S. industry. If the ITC determines that material injury, or threat of material injury does not exist, the proceeding will be terminated and all securities posted will be refunded or canceled. If the ITC determines that such injury does exist, the Department will issue an antidumping duty order directing

Customs officials to assess antidumping duties on all imports of subject merchandise entered for consumption on or after the effective date of the suspension of liquidation.

Notification Regarding Administrative Protective Order (APO)

This notice also serves as a reminder to parties subject to APO of their responsibility concerning the
