

(2) *Sablefish*. The limited entry sablefish allocation is further allocated 58 percent to trawl gear and 42 percent to nontrawl gear.

(a) *Trawl trip and size limits*. Management measures for the limited entry trawl fishery for sablefish are listed in Table 3 (North) and Table 3 (South).

(b) *Nontrawl (fixed gear) trip and size limits*. To take, retain, possess, or land sablefish during the primary season for the limited entry fixed gear sablefish fishery, the owner of a vessel must hold a limited entry permit for that vessel, affixed with both a gear endorsement for longline or trap (or pot) gear, and a sablefish endorsement. (See 50 CFR 663.323(a)(2)(i).) A sablefish endorsement is not required to participate in the limited entry daily trip limit fishery.

(i) *Primary season*. The primary season begins at 12 noon l.t. on April 1, 2003, and ends at 12 noon l.t. on October 31, 2003. There are no pre-season or post-season closures. During the primary season, each vessel with at least one limited entry permit with a sablefish endorsement that is registered for use with that vessel may land up to the cumulative trip limit for each of the sablefish-endorsed limited entry permits registered for use with that vessel, for the tier(s) to which the permit(s) are assigned. For 2003, the following limits would be in effect: Tier 1, 53,000 lb (24,040 kg); Tier 2, 24,000 lb (10,886 kg); Tier 3, 14,000 lb (6,350 kg). All limits are in round weight. If a vessel is registered for use with a sablefish-endorsed limited entry permit, all sablefish taken after April 1, 2003, count against the cumulative limits associated with the permit(s) registered for use with that vessel.

(ii) *Daily trip limit*. Daily and/or weekly sablefish trip limits listed in Table 4 (North) and Table 4 (South) apply to any limited entry fixed gear vessels not participating in the primary sablefish season described in paragraph (i) of this section. North of 36° N. lat., the daily and/or weekly trip limits apply to fixed gear vessels that are not registered for use with a sablefish-endorsed limited entry permit, and to fixed gear vessels that are registered for use with a sablefish-endorsed limited entry permit when those vessels are not fishing against their primary sablefish season cumulative limits. South of 36° N. lat., the daily and/or weekly trip limits for taking and retaining sablefish that are listed in Table 4 (South) apply throughout the year to all vessels registered for use with a limited entry fixed gear permit.

(iii) *Participating in both the primary and daily trip limit fisheries*. A vessel that is eligible to participate in the primary sablefish season may participate in the daily trip limit fishery for sablefish once that vessel's primary season sablefish limit(s) have been taken or after October 31, 2003, whichever occurs first. No vessel may land sablefish against both its primary season cumulative sablefish limits and against the daily trip limit fishery limits within the same 24 hour period of 0001 hour l.t. to 2400 hours l.t. If a vessel has taken all of its tier limit except for an amount that is smaller than the daily trip limit amount, that vessel's subsequent sablefish landings are automatically subject to daily and/or weekly trip limits.

(3) *Whiting*. Additional regulations that apply to the whiting fishery are found at 50 CFR 660.306 and at 50 CFR 660.323(a)(3) and (a)(4).

(a) *Allocations*. The non-tribal allocations, based on percentages that are applied to the commercial OY of 121,200 mt in 2003 (see 50 CFR 660.323(a)(4)), are as follows:

(i) *Catcher/processor sector*—41,288 mt (34 percent);

(ii) *Mothership sector*—29,080 mt (24 percent);

(iii) *Shore-based sector*—50,904 mt (42 percent). No more than 5 percent (2,545 mt) of the shore-based whiting allocation may be taken before the shore-based fishery begins north of 42° N. lat. on June 15, 2003.

(iv) *Tribal allocation*—See paragraph V.

(b) *Seasons*. The 2003 primary seasons for the whiting fishery start on the same dates as in 2002, as follows (see 50 CFR 660.323(a)(3)):

(i) *Catcher/processor sector*—May 15;

(ii) *Mothership sector*—May 15;

(iii) *Shore-based sector*—June 15 north of 42° N. lat.; April 1 between 42°-40°30' N. lat.; April 15 south of 40°30' N. lat.

(c) *Trip limits*. (i) *Before and after the regular season*. The "per trip" limit for whiting before and after the regular season for the shore-based sector is announced in Table 3 (North) and Table 3 (South), as authorized at 50 CFR 660.323(a)(3) and (a)(4). This trip limit includes any whiting caught shoreward of 100 fathoms (183 m) in the Eureka area.

(ii) *Inside the Eureka 100 fm (183 m) contour*. No more than 10,000 lb (4,536 kg) of whiting may be taken and retained, possessed, or landed by a vessel that, at any time during a fishing trip, fished in the fishery management area shoreward of the 100 fathom (183 m) contour (as shown on NOAA Charts

18580, 18600, and 18620) in the Eureka area.

(4) *Black rockfish*. The regulations at 50 CFR 660.323(a)(1) state: "The trip limit for black rockfish (*Sebastes melanops*) for commercial fishing vessels using hook-and-line gear between the U.S.-Canada border and Cape Alava (48°09'30" N. lat.) and between Destruction Island (47°40'00" N. lat.) and Leadbetter Point (46°38'10" N. lat.), is 100 lb (45 kg) or 30 percent, by weight of all fish on board, whichever is greater, per vessel per fishing trip." These "per trip" limits apply to limited entry and open access fisheries, in conjunction with the cumulative trip limits and other management measures listed in Tables 4 (North) and Table 5 (North) of NMFS Actions. The crossover provisions at paragraphs A.(12) do not apply to the black rockfish per-trip limits.

### C. Trip Limits in the Open Access Fishery

(1) *General*. Open access gear is gear used to take and retain groundfish from a vessel that does not have a valid permit for the Pacific Coast groundfish fishery with an endorsement for the gear used to harvest the groundfish. This includes longline, trap, pot, hook-and-line (fixed or mobile), setnet and trammel net (south of 38° N. lat. only), and exempted trawl gear (trawls used to target non-groundfish species: pink shrimp or prawns, and, south of Pt. Arena, CA (38°57'30" N. lat.), California halibut or sea cucumbers). Unless otherwise specified, a vessel operating in the open access fishery is subject to, and must not exceed any trip limit, frequency limit, and/or size limit for the open access fishery. Groundfish species taken in open access fisheries will be managed with cumulative trip limits (see paragraph A.(1)(d)), size limits (see paragraph A.(6)), seasons (see paragraph A.(7)), and closed areas. Cowcod retention is prohibited in all fisheries and groundfish vessels operating south of Point Conception must adhere to CCA restrictions (see paragraph A.(19)). Retention of yelloweye rockfish and canary rockfish and, south of 40°10' N. lat., bocaccio is prohibited in all open access fisheries. The trip limits, size limits, seasons, and other management measures for open access groundfish gear, including exempted trawl gear, are listed in Table 5 (North) and Table 5 (South). A header in Table 5 (North) and Table 5 (South) approximates the Rockfish Conservation Area (i.e., closed area) for vessels participating in the open access fishery. [Note: Between a line drawn due south from Point Fermin (33°42'30" N. lat.; 118°17'30" W. long.)
