SUPPLEMENTARY INFORMATION:

Title: Animal Welfare.

OMB Number: 0579-0036.

Type of Request: Extension of approval of an information collection.

Abstract: The regulations in 9 CFR parts 1 through 3 were promulgated under the Animal Welfare Act (the Act) (7 U.S.C. 2131 *et seq.*) to ensure the humane handling, care, treatment, and transportation of regulated animals under the Act. The regulations in 9 CFR part 2 require documentation of specified information by dealers, research institutions, exhibitors, carriers, and intermediate handlers. The regulations in 9 CFR part 2 also require that facilities that use animals for regulated purposes obtain a license or register with the U.S. Department of Agriculture (USDA). Before being issued a USDA license, individuals are required to undergo preclosure inspections; once licensed, a licensee must periodically renew the license.

The Act and regulations are enforced by USDA's Animal and Plant Health Inspection Service (APHIS), which performs unannounced inspections of regulated facilities. A significant component of the inspection process is

review of records that must be established and maintained by regulated facilities. The information contained in these records is used by APHIS inspectors to ensure that dealers, research facilities, exhibitors, intermediate handlers, and carriers comply with the Act and regulations.

Facilities must make and maintain records that contain official identification for all dogs and cats and certification of those animals received from pounds, shelters, and private individuals. These records are used to ensure that stolen pets are not used for regulated activities. Dealers, exhibitors, and research facilities that acquire animals from nonlicensed persons are required to have the owners of the animals sign a certification statement verifying the owner's exemption from licensing under the Act. Records must also be maintained for animals other than dogs and cats when the animals are used for purposes regulated under the Act.

Research facilities must also make and maintain additional records for animals covered under the Act that are used for teaching, testing, and experimentation. This information is used by APHIS personnel to review the research facility's animal care and use program.

APHIS needs the reporting and recordkeeping requirements contained in 9 CFR part 2 to enforce the Act and regulations. APHIS also uses the collected information to provide a mandatory annual Animal Welfare Enforcement report to Congress.

We are asking the Office of Management and Budget (OMB) to approve our use of these information collection activities for an additional 3 years.

The purpose of this notice is to solicit comments from the public (as well as affected agencies) concerning our information collection. These comments will help us:

(1) Evaluate whether the proposed information collection is necessary for the proper performance of the functions of the Agency, including whether the information will have practical utility;

(2) Evaluate the accuracy of our estimate of the burden of the proposed collection of information, including the validity of the methodology and assumptions used;
