Directed Fishing Closures

In accordance with § 679.20(d)(1)(i), if the Regional Administrator determines that any allocation or apportionment of a target species or "other species" category apportioned to a fishery or, with respect to pollock and Pacific cod, to an inshore or offshore component, will be reached, the Regional

Administrator may establish a directed fishing allowance for that species or species group. If the Regional Administrator establishes a directed fishing allowance, and that allowance is or will be reached before the end of the fishing year, NMFS will prohibit directed fishing for that species or species group in the specified GOA

Regulatory Area or district (§ 679.20(d)(1)(iii)).

The Regional Administrator has determined that the following TAC amounts for the species and species groups listed in Table 10 are necessary as incidental catch to support other anticipated groundfish fisheries for the 2003 fishing year.
