

“The Heart is a Lonely Hunter”

Frankenstein Seminar

In preparation for the seminar, please consider carefully the following issues:

1. What things should Victor Frankenstein be responsible for regarding his creature...
2. What things should any parent be responsible for?
3. What should a parent do especially for a homely, inept or “socially challenged” child?
4. What is our responsibility to the less fortunate, handicapped or outcast?
5. How successfully does society, do we, meet this responsibility?
6. Why does society, do we, often turn from the deformed, handicapped, etc. among us?
7. How can we counteract these tendencies (#7)?
8. What are the qualities of a beautiful person?
9. What would a world be like if it were populated only by this “ideal” person (#8)?
10. What are the dangers of genetic engineering?
11. Who is most apt to benefit from the current trends in genetic possibilities?
12. What problems do you foresee with genetic engineering?

Other Thoughts:
