Newsletter of the Triangle Woodworkers Association

**Meeting Date:
September 16th, 7:30 PM
The Woodworking Shop
3141 Capital Blvd**

Tuesday September 16th Lathe Techniques

Frank Penta who is president of the Triangle Woodturners will be demonstrating lathe techniques for turning a very small bird house. (not for real birds) Frank is not only a very talented turner! who turns many different style pieces but is an entertaining demonstrator and teacher. Host: Dave Mackie

Tuesday, October 21st meeting Band Saw tune up, blade selection and re-sawing.

Bruce Wrenn, longtime member of TWA will present a workshop on setting up, tuning, and using one of the most valuable tools in the workshop, the band saw. Many professional woodworkers, if given a choice, would pick the band saw as the tool they would most like to have in the shop. Bruce will show us how to take full advantage of this tool by demonstrating the correct way to tune it. In addition, he will talk about different jigs that can be built to take advantage of the saws full capability as well as many other issues such as blade selection. Hosted by Rob Zaccardi. Telephone (910) 590-2340

Tuesday, November 18th Annual Auction.

Phil Bright, a licensed professional auctioneer, and Dick Snow, a computer expert who will coordinate the auction on his laptop, will present the third annual auction at our November meeting. They have conducted many auctions and are very knowledgeable woodworkers. This is the time to not only get rid of all those tools that have been sitting around in your shop for years that you know you will never use, but also pick up a little money at the same time. Also, this is a chance to pick up someone else's treasure. As they say one man's trash (tool) is another man's treasure (tool). Hosted by Ed Karolak. Telephone 383-4233

Mini Workshop September 27th 8:30 – 4:30

The morning session will deal with making and using custom bases for your router. You will discover how easy it is to get a router perfectly centered on a base or how to make a base that allows you to cut perfectly centered mortises amongst other things. Presented by Bruce Wrenn.

In the afternoon Hal Brown will lead a session in working with plastic laminates. If you have ever wanted to build counter tops, this is for you.

Cost: Both sessions \$35.00 (includes lunch). Morning or afternoon only \$20.00 (does not include lunch). Preference will be given to attendees for both sessions. See Bruce Wrenn – 362-0878. Maximum enrollment 20. (P.S. I don't know what lunch will be, maybe roadkill?) - Bruce

Needed – experts to do mini workshops. Next mini workshop – fourth Saturday in January 2004.

Thank you Ed!

Take a moment and say a special Thank You to Ed Mastin who is passing the club photographer's torch on to Ron Heidenreich. Ed has been taking "candid" for nearly 11 years! Great job Ed!!

Kelly Mehler speaking at the August meeting. Photo provided by Ed Mastin

About the Triangle Woodworkers Association

The Triangle Woodworkers Association (TWA) is a non-profit educational corporation. The TWA is dedicated to teaching woodworking techniques through seminars, classes, and workshops; participants are required to sign waivers absolving liability for TWA or its designated representatives. The TWA promotes woodworking education and community interest in woodworking and in general sharing a love for wood.

New President's Message

I would like to begin by thanking Dave Mackie for serving on the board and for doing an outstanding job as president. I would also like to thank Fred Ford for his participation on the board and as vice-president. Fred has done a tremendous job as program chairman. The 2003/2004 programs are outstanding.

I will continue to work with the Toys for Tots program with Fred as my assistant. Dave and Fred have set a standard for running TWA that will be hard to keep up with. I hope that every member will help with TWA activities, especially the Toys for Tots program. We need to make two to three times the number of toys we made last year (1600 in 2003).

Hal

TWA Meeting Minutes for August 15, 2003

The meeting was called to order at 7:30 PM by Dave Mackie at the Woodworking Shop on Capital Blvd.

Elections were held approving Hal Liberty and Sig Johnson to serve as board members.

Paul Rolf, manager of the Woodworking Shop, announced that a turning show will be held Sept. 20 starting at 9:00 a.m.

Mark Kegler announced that he has a 9" radial saw for sale.

Fred Ford gave a report for the Program Committee. All of the programs for 2004 have been set.

Fred asked for a Toys for Tots sign up.

Hal Liberty announced that the Home Depot on Capital Blvd. would host a Toy's for Tots Workshop on Saturday, Nov. 1st.

Dave Mackie announced that he would start a mentor program in September.

Roger Barrow of East Wake Hardwood said that they would be giving a gallery to show off the talents of Eastern NC woodworkers.

Jeff Limburger recognized Dave Mackie for his work as President and Fred Ford for his work on programs.

Jeff announced that the weekend workshop with Kelly

Mehler would be held at Hal Brown's shop in Morrisville and then introduced Kelly as the August speaker. Kelly presented the program on furniture construction with emphasis on the matching of stock for the pieces.

Dave Mackie adjourned the meeting at 9:00 p.m.

Submitted by Kay Baker, Secretary

Library Tidbits

Many woodworkers are also interested in gardening and the TWA library can be a great help with outdoor projects.

Trellises & Arbors, by Bill Hylton has many landscape and design ideas and projects. Not only does it describe the various species of woods best used for outdoors (if you didn't get that from Hil Peel), but it also has more than 80 step-by-step how-to illustrations. It has everything from a simple trellis to elaborate arbors.

How to Build Wooden Gates and Picket Fences by Kevin Geist is a complete guide to building a picket fence. It has 100 period and contemporary designs and each is rated for its value as a property screen, security fence, and environmental buffer, as well as for ease of construction. It also illustrates how to make three-dimensional finials.

Building Garden Furniture by Ray Martin & Lee Rankin has more than 30 beautiful outdoor projects including a swing, Adirondack chair, circular dining table, and more.

If it's too late for this year, start planning for next year.

Klingspor's Woodworking Shop Happenings!

In addition to letting us use their facilities for monthly meetings, and placing many of us in temptation's way, the Woodworking Shop is home to several opportunities for us woodworkers.

North Carolina Wood Turning Show: Saturday September 20th. Divisions for Novice, Intermediate, Advanced and Professional turners. Categories include: Spindle Turning, Boxes, Hollow Form - Natural and Turned Edge, Bowls - Natural and Turned Edge, Ornaments/Bird Houses, Sculpted, Segmented, Platters and Miscellaneous. For questions and entry cost/information contact Paul Rolfe, Show Director (919) 876-0707.

Fall Woodworking Classes: Please call (919) 876-0707 for times and costs.

Oct 21, 30, Nov 4, 6, 11, 13	Introduction to Woodworking/Building a Shaker Table
Oct 22	Introduction to Woodworking Machines
Nov 5	Pen Turning
Nov 8	Build Your Own Cyclone Dust Collector
Nov 12	The Cutting Edge - Choosing Saw Blades
Nov 15	Carving Wood Spirits and Santas in Cypress Knees
Nov 19	Designing Your Dust Collection System
Nov 20, Dec 2, 4, 9, 11, 16	Mahanke Mission Series, Part 1: Mission End Table
Nov 21, 22, 23	Carve a Ball and Claw Foot
Dec 12, 13, 14	Woodturning: A Three Legged Stool

Toys for Tots Workshops

Many children are doing with very little, especially with the state of our current economy in North Carolina. Because they ran short last year, the Marine Corps is anxious to accumulate as many toys as possible this year.. Please give serious consideration to participating in the Toys for Tots program this year. Working in your own workshop or in the TWA workshops, described below, will offer you opportunities to help children. Believe me, when you wake up on Christmas morning and think of the many children who are having a better Christmas because of your efforts, you will be repaid many times for your participation.

Hal Liberty is having four workshops all Saturdays. In addition we are also having a Home Depot Workshop, also a Saturday, but in two shifts, AM and PM. If you can make both shifts, you get extra credit! Your opportunities are:

Hal's Saturday Sept 13 ---- 9:00 AM to 4:00 PM
 Hal's Saturday Oct 18 ---- 9:00 AM to 4:00 PM
 Hal's Saturday Oct 25 ---- 9:00 AM to 4:00 PM
 Hal's Saturday Nov 22 ---- 9:00 AM to 4:00 PM

Home Depot Saturday Nov 1 - 9:00 AM to 1:00 PM
 Home Depot Saturday Nov 1 -12:00 AM to 4:00 PM

Since I am handling the sign up,. I am calling everyone who has signed the sheet that was passed around at the general meetings. If you did not get a chance to sign up, but are interested in participating, give me a call (Fred Ford 469-9575) . If you have signed up and have a question or find that you can not make a workshop you have committed to, please call me.

If you are coming to a workshop, please bring your personal ear and eye protection equipment as well as your TWA badge.

Last year, a few members went to Hal's shop during the week. If anyone wants to go other than the scheduled workshops, they can contact Hal at one of the numbers below.

The lunch policy is that the club will furnish drinks and chips, You may bring your lunch or take part in a "Dutch treat" take out offer from a local restaurant. On the Home Depot day, lunch will be provided.

Directions to Workshop locations:

Hal Liberty's Workshop

- | Directions | Miles |
|--|--------------|
| 1. At I-440 Exit 11, turn off onto Ramp towards US-1 / Capital Blvd / Wake Forest / Louisburg. | 0.4 mi |
| 2. Continue (North) on US-1 | 4.9 mi |
| 3. Go under 540 interchange and continue North on US 1 | 3.4 mi |
| 4. Turn RIGHT (East) onto Burlington Mills Rd
There is a Texaco gas station at the intersection. The road sign is in the middle of the highway (left side) instead of right side. | 0.5 mi |
| 5. Turn LEFT (North) onto One World Way | 0.2 mi |
| 6. Turn LEFT Unicon Dr | 0.4 mi |
| 7. Turn LEFT in to South Forest Service center | |
| 8. Proceed through gate and proceed to 5107L Unicon Drive. Park anyplace except in front of buildings. | |

Home Depot location:

4901 Capital Blvd (a little over 3 miles north of the 440 Belt Way)

TWA Programs for 2004

This will be the fourth year for this program committee. 2001, 2002, and 2003 were very successful years for programs, and we all hope you find 2004 even more entertaining and informative. Assisting me on the Program Committee are Bob Gabor, Ed Karolak, Dave Mackie, Rob Zaccardi, Leon Harkins, John Cramer, Robert Foss, Bruce Wrenn, and Jeff Leimberger. We are all set to make 2004 the best year yet.

You will see host names after each event. They are responsible for all aspects of the events. They act as hosts for guest speakers, accept reservations (with fees if any), write the descriptions below, write newsletter articles, etc. Please contact them if you want more details about their respective programs.

We are using the responses to the program survey as a guide; however, we are always open to new ideas. If you have a special interest or an idea for a program, please see one of the committee members at a meeting or give a call.

The programs listed below may have to be changed if, for some reason, the speaker becomes unavailable. Keep posted to the newsletter for updates and changes.

Submitted by **Fred Ford, Chairman of the Program Committee September 8, 2003.**

Friday, January 16th meeting. Veneering -- Darryl Keil,

Veneer is increasingly popular for the wide selection of wood species and figures it offers the furniture maker and for the design freedom it brings by diminishing the constraints of wood movement. As woodworkers, we need to acquire the skill to transform veneer from its raw state into beautiful, finished panels. As we proceed, you will learn about basic book matching, four-way matching and radial matching, and short-grain borders in straight and circular patterns. In addition, you will learn to know the tools and techniques involved in creating different types of inlay. The Friday meeting will introduce the subject and the workshops will allow you to start developing needed skills. Darryl Keil is a leading expert on veneer work. He has made two excellent videotapes on the subject, *Working With Veneer* and *Working in a Vacuum*, and writes for *Fine Woodworking*. Darryl began making furniture in 1976 and was a pioneer in the application of vacuum pressing technology to woodworking. His company, Vacu-Pressing Systems, operates out of Brunswick, Maine. The web address, is WWW.vacupress.com. He also has a great question and answer forum there. Hosted by Fred Ford Telephone 469-9575 and Robert Foss

Saturday, January 17th workshop. An Introduction to Veneering. : He will present and guide you through the process of working veneer. The tools and techniques needed to flatten, cut, and tape veneer, are covered different kinds of glues and substrates as well as pressing with a vacuum press. Each participant will practice these techniques and end up creating a four-way matched veneer face. Hosted by Fred Ford Telephone 469-9575 and Robert Foss

Sunday, January 18th workshop Veneering the Next Step. Darryl will continue four-way matching and proceed with inlay, short-grain borders, twelve-way matching. Techniques for making curved panels, as well as advanced vacuum bagging of shaped parts, will also be covered. Please note that, as usual, the exact items covered may vary depending on the skill level and interest of attendees. Just come prepared to have a fun day. Hosted by Fred Ford Telephone 469-9575 and Robert Foss

Tuesday, February 17th meeting. Terry Brown, who is a member of Triangle Woodturners of North Carolina and professional furniture maker, will present a program on spindle turning on the lathe. In addition to being a fine woodturner, Terry has a wealth of knowledge of woodworking as well as many cost saving ideas and techniques that apply to general woodworking as well as projects on the lathe. Hosted By Dave Mackie Telephone 859-2600

Tuesday, March 18th meeting. Using the Router -- Bob Gabor Bob retired from the Electronics Industry in 1990 and almost immediately began the serious pursuit of his nearly lifelong interest in woodworking. He now carries on his woodworking activities in a shop that he built about 4 years ago. He has presented programs for the last several years, obviously enjoys teaching and prepares his programs so that they are interesting for all skill levels. The router is one of the most versatile tools available to the woodworker and the addition of simple jigs can take its usefulness to another level. Bob will show you an economical approach to getting started with a router table setup; (expensive fences and tables are not really required to get good results.) He'll also cover the design, construction and use of jigs for perfect joinery, easy to cut hinge mortises, edge trimming, curve cutting and more. Additionally, he'll show you his fast, simple and foolproof method of building bending/gluing forms for curved pieces. This program will be full of good, practical information for woodworkers of all levels. Door prizes, including a "Bob Gabor" Jig, will be offered. Hosted by Fred Ford. Telephone 469-9575.

Friday, April 23th meeting. Furniture Building Chest -- Lon Schleining Lon began his career as a professional woodworker in Southern California in 1978 building staircases. To date he has built several hundred projects including many one-of-a-kind designs. A gifted teacher, he taught woodworking classes at Cerritos College for four years. In 1995 Lon began to write articles for *Fine Woodworking* and *Fine Home Building* magazines. He has more than 50 articles in print and was recently named Contributing Editor for *Fine Woodworking*. Starting in 1998 he began to travel with the Woodworking Shows, teaching seminars on a wide variety of subjects. Hosted by Dave Mackie Telephone 859-2600

Saturday, April 24th workshop Lon Schleinging teaches proper face frame construction including proper, joinery and design considerations. Hosted by Dave Mackie Telephone 859-2600

Sunday, April 25th workshop Lon continues with construction of a face frame including assembly and clamping, and ensuring that the frame is square. Selection of proper hinge, and latches is covered.
Hosted by Dave Mackie Telephone 859-2600

Tuesday, May 20th meeting. Kitchen Cabinets with a Story Stick -- Hal Brown Hal, a TWA member, retired from Rex Hospital as the Director of Cardio and Pulmonary Services after a twenty-five year career in the medical field. He started his woodworking as a child in bible school. He turned professional in 1995, when he retired from the medical field. Working on commission jobs, Hal turns out everything from custom kitchen cabinets to special furniture pieces. Hal returns to us as an encore to his very popular 2003 program on router jigs. At this meeting, Hal will demonstrate how he does a part of his professional work, making kitchen cabinets. He will show some short cuts to perfection, demonstrate how a story pole can be used to reduce error, and how to improve quality. Hosted by Robert Foss Telephone 782-6472

Tuesday, June 15^h meeting Finishing -- George Holmes George of Traveler's Rest SC will be our speaker. George is the manufactures rep for the M L Campbell Co. He works with cabinet shops and manufacturing companies to choose both the right product and the right technique. He has helped Hal Brown, a TWA member, solve a couple of problems. He has convinced me that knows what to do. He also runs a spraying school for the Hardwood Group in Charlotte. Expect to see some live demonstrations of spraying techniques.
Hosted by Bruce Wrenn Telephone 362-0878

Tuesday, July 20th meeting, Furniture Design -- David Kenealy, David is a master woodworker and furniture designer. He has been on the faculty of Rockingham Community College since 1987. In addition to being the direct and lead instructor at Rockingham, he took two sabbaticals and engaged in a number of interesting experiences. He lived in Cebu, Phillipines for one year as director of quality control for Maitland-Smith, Inc. and for another year was director of quality control, engineering, and sample making at Maitland-Smith, Inc. On another one year assignment, he was in Mandawa, India as plant manager for Highland Home Furniture Company. He is also owner of Kenealy Enterprises, specializing in sample work consulting for the furniture industry. David and his students display their magnificent furniture at many of the national tool shows. The pieces are great examples of innovative design and superb craftsmanship. His presentation to TWA will be a must-see program! David will take us from concept, to material selection, to finished work of art!
Hosted by Ed Karolak Telephone 383-4233

Tuesday, August 17th meeting. Proper Dust Control in Your Shop -- Bruce Wrenn Bruce needs little introduction to most club members but for those of you who may be new to the club or do not follow the newsletter closely, Bruce is a former shop teacher and is well versed on many subjects. From his articles of Tool Talk in our newsletter, most of us have picked up many helpful tips for our shops. Bruce has helped to set up others with dust collection systems that would parallel even "Norm's". Please join us for an informative and entertaining meeting. Hosted by John Cramer Telephone 844-4087

Tuesday September 21st meeting, Antique Tools and Toys -- Roy Underhill, The longtime master housewright at Colonial Williamsburg, Roy Underhill is the leading authority on old-time woodworking techniques. He created **The Woodwright's Shop** for public television in 1979. The series, produced by the University of North Carolina Center for Public Television, has aired nationally since 1981, with thirteen new programs introduced each year. Roy is a graduate of the University of North Carolina at Chapel Hill and holds a master's degree from Duke University. Roy will be presenting how old tools still have a place in the modern workshop. He will also present some old tried and true toys to get us in the mood to attack the Toys for Tots season with vigor. Hosted by Ed Karolak Telephone 383-4233

Tuesday, October 19th meeting, Jigs, Jigs, Jigs and Fixtures : Members of TWA will exhibit some of their favorite jigs and fixtures. They will explain their jigs' construction and use. This meeting will teach you ways to do certain tasks more safely, more efficiently, and more precisely than ever before. Fred Ford and Bob Gabor are just two of the members who are going to share their tricks. Hosted by Jeff Leimberger Telephone 489-5195.

Tuesday, November 18th meeting. Annual Auction Phil Bright, a licensed professional auctioneer, and Dick Snow, a computer expert who will coordinate the auction on his laptop, will present the third annual auction at our November meeting. They have conducted many auctions and are very knowledgeable woodworkers. This is the time to not only get rid of all those tools that have been sitting around in your shop for years that you know you will never use, but also pick up a little money at the same time. Also, this is a chance to pick up someone else's treasure. As they say one man's trash (tool) is another man's treasure (tool). Hosted by Ed Karolak. Telephone 383-4233

Tuesday, December 9th meeting. Toys for Tots, Show and Tell, and Social. The December meeting is going to be a meeting and social. We want everyone to bring a spouse or friend. We are going to have coffee, soft drinks, and dessert. We will have some time to socialize, a brief business meeting, and a show and tell featuring the Toys for Tots donations. Everyone is also encouraged to bring items they have made to show to the members and guests. The Marine Corps will be there to receive the toys and to add a spot of color to our meeting. Hosted by Hal Liberty telephone 787-7603
