Name of Program(s): Luminary
Originator: DAVID H. MOORE
Organization: MIT/IL
Date: June 13, 1969
Description of Change: Fix R13 for check if in PB6 before check for mode control in Auto. (Change is for LUM 1B. Program) CR13 is AUTO-MODES-MONITOR ROUTINE

Reason: If change not in, placing DAP in AUTO the following will occur:
1) significant number of R.D. "clicks" disregarded
2) increase of computer execution time by 5%.
