The landing radar velocity update is scaled at twice the scaling it should be.

Interpretive trace of nominal digital simulation of landing.

Coding error

None

None

Pad loaded erasables LRWVX, LRWVY, LRWVZ should be scaled B+1 (i.e., use $\frac{1}{2}$ of the true value)

None

See 2.4

Work around as in 2.4

Fix in LUMINARY 1A

Interpretive trace of digital simulation of nominal landing.
