FOREWORD

Recent changes in policy governing both the procurement of men for the armed forces and the assignment of enlisted men from reception centers have necessitated changes in ASF Manual M-201, Induction Station and Reception Center Operation.

The procedures contained in this manual are designed to implement current regulations affecting reception center operations, and to simplify and standardize, to the fullest extent practicable, the processing of personnel through such stations. Many of these procedures have been developed through the initiative, ingenuity, and resourcefulness of the commanding officers and personnel of reception centers. It is recognized that there may exist some local conditions or differences in physical facilities and layout which may make it difficult to apply certain procedures. When by reason of such conditions or differences it appears that an element of the procedures prescribed in this manual cannot be applied, a deviation to the extent necessary is authorized. However, in approving a deviation, the commanding officer of a reception center should exercise care to determine that the deviation is based on a condition or difference of the type mentioned above.

The various War Department and related forms currently used in reception center processing cover a wide range of personnel and fiscal activities. For the most part, they do not at this time appear to present significant opportunities for consolidation or elimination. It is largely in the technique of processing itself and in the elimination of local forms to the greatest extent possible that efforts must be made to simplify procedures.

The procedure charts used in this manual illustrate graphically the flow of the man and his records and the action taken throughout each step in the process. Three types of rectangular blocks are used in these charts. The first type, with shading along all outside edges, indicates a person; for an example, see Figure 1. A block with shading along only the lower and right hand edges indicates a document, Figure 2. The same block shaded in one corner indicates that the document is originated by the section, unit, or other organization shown in the column heading, Figure 3. A third type of block, with dark shading along the lower and right hand edges and with light shading over the face of the block, represents neither a person nor a record but such things as a garment, a verbal request, or a telephone call, Figure 4.

FIGURE 1

FIGURE 2

FIGURE 3

FIGURE 4

The numerals appearing in the upper left hand corners of the blocks are the copy numbers which do not necessarily appear on the forms themselves. Number 1 indicates the original, number 2, the duplicate, and so forth.

Suggestions for the simplification or improvement of the procedures and for the consolidation or elimination of any forms are invited, and may be forwarded direct to the Army Service Forces Procedures Committee, Room 3E 616, The Pentagon, Washington 25, D. C. All suggestions should be accompanied, wherever possible, by charts and forms so that they may be readily compared with the procedural charts and forms contained in this manual.

Section I

GENERAL**1. Authority.**

Reception centers are Class 1 installations of the Army Service Forces established and operated pursuant to AR 615-500.

2. Definition.

The terms "enlisted man" or "enlisted men" when used in this manual will apply to a soldier or soldiers entering the Army by enlistment or induction.

3. Mission.

The mission of reception centers is to perform certain administrative processes in connection with newly enlisted men which must be accomplished before they may begin basic training.

4. Administrative Processes.

The essential administrative processes performed at reception centers are:

- a.* Initiation of records.
- b.* Physical profile.
- c.* Classification tests. (Army General Classification, Mechanical Aptitude and Army Radio Code Aptitude.)
- d.* Issuance of clothing and equipment.
- e.* Classification.
- f.* Application for insurance, dependency benefits, allotments, and bonds.
- g.* Blood typing.
- h.* Immunization. (Initial injections.)
- i.* Training films and lectures.
- j.* Assignment.
- k.* Transfer to training center.

5. Processing Plan.

a. Under the current procedure for assigning enlisted men from reception centers to training centers, men may not be transferred from the reception center until they have been reported to the Adjutant General's Office on the Daily Availability Report by Physical Profile (ASF Registry Number 43-WDGA), and that office has directed a daily allotment for them. To process men with all practicable speed requires, therefore, that the processing plan give precedence to the various steps upon which the Daily Availability Report is based. Specifically the steps which must be completed before the report may be made are the physical profile examination and the Army general classification test.

b. The remaining steps in the processing do not directly affect the preparation of the Daily Availability Report, and consequently their sequence is not a matter of importance.

c. The processing plan on page 3 arranges the processing steps in the sequence which will enable the reception center to prepare and transmit the Daily Availability Report at the earliest practicable time.

6. Aids to Processing.

Some specific aids and suggestions designed to exploit opportunities for speedy and efficient processing are contained in Section V of this manual.

7. The Personal Factor in Processing.

While considerable emphasis is placed on speedy and efficient processing, the psychological implications involved in the transition from civilian life to

military life should not be overlooked. The reception center is the new soldier's first Army home and his first experience with Army procedures following enlistment or induction. In most cases, he will look upon reception center activities as indicative of what he may expect in the future. Accordingly, the impression made on the soldier during his stay at the reception center may have a significant influence in shaping his attitude toward the Army. The processing should be so conducted as to impress the soldier with the fact that, in traditional Army manner, it has been meticulously planned and is being executed according to that

plan. He should be given fair and considerate treatment. Unnecessary haste or unwarranted delays should be avoided. Care should be exercised in the initial assignment of quarters so that changes will be held to a minimum. The mess should be so coordinated that all soldiers do not arrive at a mess hall at the same time. All reception center personnel who conduct any phase of processing should be thoroughly trained in their jobs. Military personnel of the reception center should be exemplary in appearance and conduct. The reception center should take full advantage of the opportunity it has to instil in the soldier confidence in Army leadership.

RECEPTION CENTER PROCESSING PLAN

INITIAL STEPS	FIRST PROCESSING DAY	SECOND PROCESSING DAY
Receiving	General Orientation Talk	Interview and Classification
Checking	Physical Profile	Insurance, Bonds, and Al- lotments
Issuance of Towels, Toilet Articles, Raincoat, and Pamphlet	Classification Testing*	Required Lectures and Films
Quartermen	Clothing Issue	Blood Type and Inocula- tions
Initiation of Records		

** Immediately after the completion of the Army General Classification Test, the results thereof will be determined and forwarded to the Classification and Assignment Section.*

The general plan illustrated above applies to a situation in which the enlisted men have arrived at the reception center late in the afternoon or during the night so that the steps commencing with the General Orientation Talk cannot begin until the reception center starts processing for the day. When enlisted men are received during the morning or during hours of the afternoon which will permit some processing to be accomplished in addition to that shown under "Initial Steps," as many of the additional processing steps as possible will be accomplished as time permits. As indicated previously, the physical profile examination and the Army General Classification Test must be accomplished at the earliest practicable time after the arrival of the enlisted men so that they may be reported on the Daily Availability Report by Physical Profile, ASF Registry 43-WDGA, due at the Adjutant General's Office not later than 1800Z daily.

Section IV

PROCESSING MEN ENLISTED IN THE ERC OR OTHER COMPONENTS OF THE ARMY

10. The basic procedures prescribed in this manual apply also to the processing of men who have entered the army by enlistment in the Enlisted Reserve Corps or other components of the Army, with the exceptions noted below.

11. Enlisted Reserve Corps.

The service command on issuing an order calling a member of the Enlisted Reserve Corps to active duty, forwards to the reception center the number of copies of the special orders required by the reception center, as well as the copy of the Enlistment Record, WD AGO Form 165, and the Service Record, WD AGO Form 24 which were forwarded to the service command at the time of enlistment. The reservist on reporting to the reception center is given a physical examination, the results of which are recorded on a physical examination work sheet. The work sheet is transcribed to the Record at Time of Reporting for Active Duty, WD AGO Form 183, in duplicate. The center also completes those parts of WD AGO Form 183, not pertaining to the physical examination. When the enlisted man is transferred from the reception center, or if he is still at the reception center ten days after his arrival thereat, the original copy of

WD AGO Form 183 will be forwarded to the Adjutant General's Office, Washington 25, D. C., with a notation as prescribed in AR 615-500; the duplicate copies of WD AGO Forms 183 and 165 are forwarded to the service command. If an enlisted reservist is found to be physically disqualified upon reporting for active duty, appropriate action will be taken in accordance with the provisions of current War Department directives.

12. Enlistees other than ERC.

The enlisted man reports to the reception center with sufficient copies of the special orders forwarded by the recruiting station, the original copy of the Enlistment Record WD AGO Form 22, the Service Record, WD AGO Form 24, and Home Address Report, DSS Form 166. When the enlisted man is transferred from the reception center, or if he is still at the reception center ten days after his arrival thereat, the original copy of WD AGO Form 22 will be forwarded to The Adjutant General, Washington 25, D.C., with a notation as prescribed in AR 615-500. The Home Address Report, DSS Form 166, is forwarded with the original copy of the WD AGO Form 22.

Section V

EXPEDITING THE PROCESS

13. General.

Some of the principles and methods for expediting reception center processing which have been developed are presented in this section.

14. Office Layout.

Proper layout of the various offices used for processing contributes considerably to expeditious processing. Equipment and facilities should be so arranged that the enlisted men and the forms being processed move forward on an assembly line basis.

Backtracking or crisscrossing should be avoided wherever possible. The names of the various processing stations should be clearly and conspicuously designated by signs. In the same manner all company barracks should be clearly identified. The following figures illustrate the practical application of the principles of layout in three situations. They are guides only which are intended to illustrate a principle. It is not intended that they be mandatory. Each layout must conform to the facilities available.

Layout for processing Soldier's Qualification Card after interview.

Layout of Clothing and Equipment Section.

Layout of Blood Type and Immunization Section.

NOTE: The time required to process enlisted men through this section is regulated by the time it takes to perform the blood typing accurately and without hurry.

15. Predating and Preprinting.

A saving of processing time may be realized by predating forms or preprinting on them informa-

tion which is applicable to all enlisted men being processed. Examples of preprinting are illustrated below.

FLUENTLY (B-30)		S	R	W	S	R	W	S	R	W	S	R	W	S	R	W	FOR

AUTHORIZATION FOR ALLOTMENT OF PAY

(See AR 35-5520)

(Last name) (First name) (Middle initial) (Army serial number) (Grade) (Company, regiment, or arm or service)

The (enlisted man) named above hereby authorizes a Class (Type of allotment)

allotment of his pay in the amount of \$ per month for Indefinite months commencing Sep 1944, and expiring 1944

() premiums deducted from pay for month of Sep 1944 (Applicable to Class N insurance only (sec. 14, U.S. Code, Title 38, U.S.C., 1941))

to Veterans Administration (Name of allottee) (Number and street or rural route) Washington 25, D.C. (State)

or to (Name of alternate allottee) (Number and street or rural route) (City, town, or post office) (State)

Date of enlistment 1944. When other than "Finance Service, Army" is affected state allotment chargeable Relationship of allottee

If allotment is in favor of a bank, the following is required to be stated: Deposit should be made to the credit of—

(Name) (Relationship)

I hereby state that the purpose for which this allotment is granted is solely for the support of wife, child, or dependent relative; or if made for the payment of life insurance premiums, the insurance (including endowments and/or twenty (or other) payment policies) is on the life of the allottee only; that the insurance constitutes the major and not a merely incidental or collateral element of the transaction; and that the allotment is made in favor of the insurance company issuing the policy and not in favor of a bank or other agent.

Place Fort Devens, Mass.

Entered on service record Aug 44 (Date)

(Signature of allottee) Aug 44 (Date)

(Signature of commanding officer or personnel officer, with grade and organization)

WHEN APPLICABLE TO CLASS D OR CLASS N INSURANCE, THE ORIGINAL COPY OF THIS FORM WILL BE SENT TO THE EXAMINATION DIVISION, BUILDING 1, 15TH AND B STREETS NE, WASHINGTON, D. C. NO COPIES WILL BE SENT TO THE VETERANS ADMINISTRATION, WASHINGTON, D. C., WITH THE APPLICATION FOR INSURANCE.

W. D., A. G. O. FORM No. 28 November 4, 1943 12-9-21-5 U. S. GOVERNMENT PRINTING OFFICE

Preprinting on Application for National Service Life Insurance, Veterans Administration Insurance 350, and Authorization for Allotment of Pay, WD AGO 29, may be done as illustrated above. No part of sections 8 or 11 of insurance application, however, may be preprinted, prestamped, or otherwise filled in until the enlisted man is interviewed.

On the individual Clothing and Equipment Record, WD AGO 32, the columns "Authorized Allowances" and "1" may be preprinted as illustrated on page 34.

Machine for imprinting

16. Imprinting the Enlisted Man's Name and Army Serial Number.

There are many forms on which the enlisted man's name and Army serial number must be placed. Time may be saved by using for this purpose a plate or one of the soldier's identification tags. Depend-

ing upon the type of equipment and the amount available, some stations may find it preferable to imprint the enlisted man's name and Army serial number on the various forms at one point. The illustrations demonstrate methods used to imprint the enlisted man's name and Army serial number on forms.

Imprinting Machine with Improved Sliding Chase

THE ARMY LIBRARY

WASHINGTON, D. C.

Device for foot measurement.

17. Clothing and Equipment.

a. Non-size items such as ties, barracks bags, and mess equipment may be set up prior to the enlisted man's arrival at the clothing and equipment section.

b. The enlisted man may send his civilian clothes home or is given an opportunity to donate them to the Red Cross. If he elects to send his clothes home, he proceeds to a table on which there is a supply of civilian clothes bags. He addresses a bag, places his clothes in it, and leaves it at the parcel post counter, from which it is mailed to its destination. The enlisted man then proceeds to the clothing line where he receives the sets of non-size items. As he progresses along the line he dresses into a complete uniform, placing all the other items of issue in a barracks bag, basket, or other container.

c. Full use should be made of any measuring devices which have been developed.

d. The alteration slips illustrated on page 42 are set up in quadruplicate with the necessary carbons inserted in advance.

Device used for measuring inseam.

Rack for Holding Hypodermic Needles.

18. Immunization.

a. Because of both the necessity for expediting the preparation and transmission of the Daily Availability Report and the varying effects of immunization on enlisted men, this phase of processing should not be conducted until after the enlisted man has been tested, interviewed, and classified. It is highly important that complete records be maintained, particularly with respect to follow up for subsequent inoculations, should the enlisted man remain at the reception center for a sufficient period of time.

b. A freshly sterilized needle will be used for each individual inoculation. Where hypodermic needles are sterilized while lying loose in a sterilizer tray, each needle will be picked up and placed on the syringe using sterile thumb forceps.

c. Where large numbers of men must be inoculated in rapid sequence, a special rack for hypodermic needles may be used to advantage. A simple rack is illustrated above which may be easily made locally. The frame is made of ordinary scrap lumber nailed together with finishing nails. The depth of the rack must be enough to prevent the tips of the needles from touching any supporting surface. Coppercoated or bronze wire mesh, commonly used to make window screens, is then tacked firmly across the top of the rack. Wire handles are added for ease in handling. The wooden frame replaces the ordinary metal sterilizer tray and is of the same size. Three racks are used, one with sterile needles, one for used unsterile needles, and one in the sterilizer. The hypodermic needles are dropped lightly into place tip down through the interstices of the screen. The hub is grasped with thumb and index finger when the needle is removed for use.

19. Mess.

Wherever possible, it is advisable to have an officer responsible for coordinating the messing of enlisted men. Good timing avoids long lines and long waiting at the mess.

20. Testing.

a. Every attempt should be made to permit the soldier to take the tests under as nearly perfect conditions as is possible. The importance of the various tests (presently consisting of the Army General Classification Test, the Mechanical Aptitude Test, and the Army Radio Code Aptitude Test) should be clearly stressed, and the fact that they are conducted on a time basis should be fully explained. Once properly administered, extreme mechanical care must be taken to make certain that scores are correctly tabulated and converted. This may be accomplished in the following manner:

(1) Manually rechecking first machine scored test sheet of each group.

(2) Manually rechecking by use of the template all scores within one of the next higher grade.

(3) Random conversion rechecks.

b. It has been found that considerable time saving may be effected by recording the scores attained directly to proper spaces on the Soldier's Qualification Card, thus eliminating the necessity for recopying at a later point in the processing.

21. Use of Enlisted Men Awaiting Transfer.

Enlisted men who have been processed and are awaiting transportation to training centers may be

used to assist in the performance of processing operations. Among the operations which they may be easily trained to perform are the imprinting or stamping of standard entries in records, and assisting in the receipt, storage, and issuance of clothing and equipment. Under no consideration, however, may their transfer to training centers be delayed because they are performing such duties. The number of enlisted men, awaiting transfer, who are assigned to assist in the performance of processing and housekeeping operations will be kept to the minimum required to accomplish the task. To insure that this is done, requests for men to be assigned to various details should be examined carefully and checked periodically. Under normal conditions enlisted men awaiting transfer should not be assigned to general post, camp, or station details when the reception center is a part of a post, camp, or station, or to assist in the operation of other organizations within a War Department personnel center, when the reception center is a part of such a center.

22. Training of Men Awaiting Assignment at Reception Centers.

Mobilization Training Program 20-3, dated 10 August 1944, describes the military training which will be given to men who have completed processing and are awaiting assignment. All men who have completed processing and who are not assigned to necessary reception center details or sick in quarters, in the hospital, or in confinement will receive the prescribed training. Training given to these men will be conducted in accordance with approved instructional procedures.

NOTICE

Missing page(s) detected here at time of scanning

d. If the insured does not indicate his choice of beneficiary by designating the persons he wishes, the law provides for payment in the following order: wife, child, parents, sisters and brothers.

8. *Payments to beneficiaries.*

a. All death benefits are payable only in the form of monthly payments, as follows:

(1) Beneficiary under age 30 at time of insured's death, \$5.51 per month per \$1,000, for 240 months.

(2) Beneficiary age 30 or older at time of insured's death, a monthly life income, with a guarantee that a minimum of 120 monthly payments will be made (within the permitted class of beneficiaries), if the person first receiving benefits should die before receiving at least 120 monthly payments.

(3) In lieu of either of the above, either the insured or the beneficiary may elect to have the insurance benefits paid monthly in the form of a refund life income, whereunder if the person first receiving the benefits should die before having received at least the face amount of the policy less any indebtedness, the balance, in monthly installments, will be continued to eligible beneficiaries. (The amounts of monthly payments per \$1,000 under (2) and (3) above depend upon the age of the beneficiary at the time of the death of the insured—illustrate by an example or two.)

(4) All death benefits payable only to persons within the permitted class, except in cases of converted (permanent) plans, where reserve value is paid to the estate of the insured if there is no eligible beneficiary surviving who had received at least such an amount.

9. *Payment of premiums*—insurance cannot lapse while in active service if the allotment remains in effect—authorization for deduction of premiums from pay—Class N allotment. Emphasize that practically all soldiers pay premiums in this way.

10. Buy now and make insurance effective immediately because

a. It is difficult to find the time later—you will be too busy.

b. No physical examination is required if you act now. After 120 days a physical examination is necessary.

c. The protection may be made available for you at once and should not be deferred—this is the only way to take advantage of all to which one is entitled.

BONDS

11. Several allotment plans.

a. \$7.50 per month for a \$10.00 bond each month.

b. \$18.75 per month for a \$25.00 bond each month.

c. \$37.50 per month for a \$50.00 bond each month.

12. May have more than one allotment for bonds—such as \$7.50 and \$18.75 for \$10.00 and \$25.00 bonds each month.

12. The enlisted man may, if he desires, name a beneficiary or co-owner and may have different beneficiary or co-owner on each allotment if more than one is in effect. Bond allotments generally become effective with the second month's pay.

14. Stress value as form of savings and for patriotic reasons, but do not oversell the soldier as he is going through a readjustment period.

FAMILY ALLOWANCE

15. Family Allowance is provided for in the Servicemen's Dependents Allowance Act of 1942, as amended.

16. It is a monthly payment by Government check to the enlisted man's dependents so long as he and his dependents remain eligible.

17. Classes of Dependents.

a. Class A — Wife, child, or former wife divorced.

b. Class B — Parent, brother, or sister, dependent on enlisted man for SUBSTANTIAL portion of support.

c. Class B-1 — Parent, brother, or sister, dependent on enlisted man for CHIEF portion of support.

18. Enlisted Man's Contribution.

a. For Class A dependents — \$22.00 monthly.

b. For Class B or B-1 dependents — \$22.00 monthly.

c. For more than one class of dependents — \$27.00 monthly.

19. Examples of Amounts Dependents Receive Monthly.

a. Wife, \$50.00; wife and one child, \$80.00, with \$20.00 for each additional child.

b. Father and mother — Class B-1, \$68.00.

c. Father and mother — Class B, \$37.00. Only one amount, \$37.00, is payable monthly to a group of Class B dependents regardless of the number of such dependents.

20. Children and dependent brothers or sisters are eligible if they are unmarried and under 18 years of age, or regardless of age if mentally or physically incapacitated.

21. Documentary proof required to establish Class A dependency.

a. For Wife — A certified copy of the public or church record of marriage is preferable. If preferred proof of marriage cannot be obtained, the best available evidence should be submitted. A partial list of such secondary evidence includes the following documents:

(1) Photostatic copy of public or church record.

(2) Certificate by clergyman or public official who performed ceremony.

(3) Affidavits of two eyewitnesses to ceremony.

b. For common-law wife — If undisputed, affidavit by either soldier or his common-law wife, and in addition, affidavits of two other persons having personal knowledge of the circumstances. Applies only in states or territories where common-law marriages were recognized at time such relationship existed.

c. For divorced wife — Certified copy of court decree of divorce.

d. For separated wife — Certified copy of court decree of separation and maintenance. If not separated by court order, true copy of separation agreement by the soldier and separated wife.

e. For a legitimate child — Certified copy of public record of birth or church record of baptism is preferable. If preferred proof of birth cannot be obtained, the best available evidence should be submitted. These include any one of the following, listed in order of preference:

(1) Photostatic copy of public or church record.

(2) Affidavit from physician, midwife, or nurse who attended birth, or from godparents.

(3) Affidavits from two persons, stating their actual knowledge of name, age, date and place of birth of child, and naming child's parents.

(4) If no other evidence is available, certified copy of records from a family bible, church, naturalization or immigration office, or a hospital.

f. For an adopted child — Certified copy of court decree of adoption; also, record of birth.

g. For an illegitimate child — In addition to birth certificate, submit certified copy of court decree declaring enlisted man father of the child, or ordering the enlisted man to contribute to the child's support, or enlisted man's written statement that he is the father of the child.

22. Documentary evidence required to establish dependency of Class B or B-1 dependents.

a. A dependency certificate, WD AGO Form 620, will be completed for each adult individual (for himself or on behalf of a minor) living in one household who claims dependency on an enlisted man.

23. Initial Family Allowance is a payment of one month's full allowance to Class A and B-1 dependents, provided the enlisted man submits his application on WD AGO Form 625 within 15 days after entry into active service in a pay status.

ALLOTMENTS

24. Class E Allotments may be made for additional help to dependents, for savings, or for commercial life insurance, provided the enlisted man retains \$10.00 of his monthly pay for his own use.
